

Product name: ENDORFY Earpads Cool Hybrid
Product code: EY0A002

The Earpads Cool Hybrid are designed for users who value high comfort and a cooling sensation, even on the hottest days. A unique combination of premium PU leather on the sides, soft fabric on the front, and a special cooling layer ensures exceptional comfort during extended use and balanced sound quality.

Cooling comfort

The earpads are filled with a special cooling material. The gel layer reduces overheating and offers a refreshing coolness right from the moment you put them on. This ensures comfort even during intense sessions on hot days. The duration of the cooling effect depends on use and environmental conditions – to experience the coolness again, simply set the product aside for a few minutes.

A perfect fit

The memory foam padding molds perfectly to the shape of your head and ears. By adapting to the user's unique anatomical features, the headphones fit more securely, ensuring optimal pressure and stability, while improving comfort even during long sessions of music, podcasts, games, or movies.

Balanced and clear sound

The hybrid design of the earpads ensures the optimal balance between isolation and a wide soundstage. The PU leather-covered sides improve acoustic isolation, while the fabric front enhances the natural quality of the sound. This makes it the perfect solution for those looking for a compromise between the stronger bass typically found in PU leather models and the natural, open sound of fabric earpads.

Modern elegance

The stylish combination of PU leather, soft fabric, and the cooling layer gives the earpads a modern design with high quality materials. Additionally, the blue LEFT and RIGHT markings provide a unique and distinctive look. It's also the easiest and quickest way to refresh your worn-out headset.

Compatibility and easy installation

The earpads are specifically designed for the Viro, Viro Plus, and Viro Infra headsets by ENDORFY, but they are also compatible with many popular models that have a similar design and dimensions. The user-friendly mounting system allows for quick and easy earpad replacement, so you can immediately enjoy improved comfort and sound quality.

ENDORFY Earpads Cool Hybrid – main features:

- Filled with cooling gel
- Memory foam padding
- Universal size
- Quick and easy installation
- High-quality craftsmanship
- Balanced sound and optimal isolation

ENDORFY Earpads Cool Hybrid – technical specifications:

- Product code: EY0A002

- EAN: 5903018665726
- Product type: earpads
- Color: black
- Dimensions (W×H): 110×90 mm
- Weight: 58 g
- Materials:
 - Soft fabric
 - PU leather
 - Cooling gel
 - Memory foam padding
- Compatibility:
 - Viro
 - Viro Plus
 - Viro Infra
 - Other models of similar size and installation method
- Warranty: 24 months

ENDORFY Earpads Cool Hybrid – logistics data:

- Retail box dimensions: 113×26.5×180 mm
- Weight (net): 58 g
- Weight (gross): 97 g
- Master carton dimensions: 377×315×260 mm
- Master carton weight (gross): 4.5 kg
- Product quantity in master carton: 40 pcs

Set includes:

- 1× ENDORFY Earpads Cool Hybrid
- 1× User and safety manual
