

Product Name: ENDORFY Broadcast Low Profile Boom Arm**Product Code: EY0A009**

Sturdy, compact, versatile and easy to use, the ENDORFY Broadcast Low Profile Boom Arm is the perfect stand for gamers, content creators, or simply folks who need a best-in-class microphone stand. Whether you need to hold your mic or your phone, the ENDORFY Broadcast Low Profile Boom Arm will help you keep your hardware steady and let you focus on what you're creating.

We designed it to be simple and compact to fit on any desk without taking away any of your precious real estate or sticking out like a sore thumb in your camera shot. What's more, our Quick Mount system will allow you to install anything you need on the arm in a flash.

Sturdy but subtle

The Broadcast Low Profile Boom Arm was created to ensure that your equipment remains safe, while also giving you plenty of options to line up in a way that won't intrude on your space. Whether you want to fit it under your monitors or sweep it out to the side, this arm has got you covered.

Cables? In order!

The arm also includes a built-in channel for cable management to help you avoid all the needless cable spaghetti or a mess of zip ties that has frustrated many content creators in the past.

Quick mount

Mounting a microphone or webcam onto an arm can be quite a hassle. Fortunately, thanks to our Quick Mount system, you can easily swap your hardware without the need for any tools.

Not just mics

Thanks to an included set of adapters (3/8"- 5/8" or 3/8" - 1/4"), you'll also be able to mount more than just mics, giving you a great way to stabilize your phone, camera or streaming lights whenever needed.

Full control

With a ballhead mount and 360° joints, you can position your microphone wherever you need it, without being limited by the arm's dimensions. Our toolless design and locking system will also ensure that your hardware stays put without the need for constant regulation or fumbling around with wrenches and screwdrivers.

Low or high, it's your choice!

If you need more customizability, the Broadcast Low Profile Boom Arm includes an 82 mm and 157 mm extensions, allowing you to set the arm's joint at the

height you want it to be. Whether you need to keep it low or go high, we've got you covered.

Any desk, any time

The Broadcast Low Profile Boom Arm can be mounted on virtually any desk 15 to 105 mm thick, and soft padding ensuring that the desk surface beneath the clamp will be safe throughout its use.
