Product name: ENDORFY Meta RD
Product code: EY8A006

The ENDORFY Meta RD is as comfortable as a flurry of cushions, and it just looks great in its sleek and muted colour scheme. We've designed it to fit your body as snugly as possible – its backrest sits tightly against your spine and supports it at five strategic points (including your lumbar region).

You can also adjust the height of the seat (400-460 mm), the position of the armrests (vertically, horizontally, and sideways) and the headrest (pitch and height). You can even recline on the backrest, and the seat will adjust itself to your body's position. The whole thing is held in place by a top-of-the-range gas cylinder (load capacity up to 150 kg), so you can use the chair without worrying that you'll end up on the floor.

Your stable oasis
We've been known to say that the Meta RD is a stable oasis for any *technology hero*. On the one hand, it's because it makes us feel really comfortable and safe. On the other – this bad boy's got your back, literally, propping it up in the most critical places.

The secret is in the backrest, which comprises five separate segments that support the spine in strategic places (yup, we didn't forget even about the coccygeal section). We've tailored it to people between 1.60 and 1.85 m.

Make yourself at ~~home~~ chair!
With the Meta RD, every time you hear someone say "sit down and make yourself comfortable" the words take on a new meaning. This chair will fit your body like a missing piece of a jigsaw puzzle.

We've upholstered the Meta RD with cold-pressed foam that follows the shape of your body. Not only that, but every part of the chair is fully adjustable. You can change the seat height (400-460 mm), adjust the armrests (vertically, horizontally, and sideways), and trim the headrest (pitch and height). If you feel like leaning back a little, the seat will instantly adjust itself to the angle of your body's position, thanks to a unique synchronizing mechanism.

The entire structure is held in place by a class 4 gas cylinder made of steel that is capable of supporting static loads of up to 150 kg. Add to that the steel base and large castors with a nylon finish, and you get solid structure that we recommend for people up to 120 kg. To put it simply – there's an MMA armchair fighter underneath you, keeping an eye on your safety.

A pleasantly cool breeze ;)
The Meta RD is an unbreakable chair. It's upholstered in a durable fabric that provides additional air circulation. You can sit in it for hours without worrying that you'll get hot like a cosplayer in a thrift-store costume.

ENDORFY Meta RD – main features:
- Unique design
- High quality fabric
- Wide range of adjustment

- Synchronous mechanism
- Highest-, 4-class gas lift

ENDORFY Meta RD – technical specifications:

- Product code: EY8A006
- EAN: 5903018666501
- Product type: gaming chair
- Colour: red
- Dimensions (H×W×L): 1300×690×640 mm
- Material: fabric
- Backrest:
    - Height: 685 mm
    - Thickness: 60 mm
    - Inner width: 280 mm
    - Outer width: 470 mm
    - Minimum incline angle: 100°
    - Maximum incline angle: 125°
- Seat:
    - Minimum height (from ground level): 420 mm
    - Maximum height (from ground level): 500 mm
    - Inner width: 385 mm
    - Outer width: 575 mm
    - Thickness: 110 mm
    - Depth: 520 mm
    - Type of rocking mechanism: synchro TILT
- Armrests:
    - Minimum height: 285 mm
    - Maximum height: 355 mm
    - Rotation adjustment: yes
    - Position adjustment: yes (front, rear, left, right)
- Base:
    - Arm length: 330 mm
    - Gas Lift type: 175 mm Class 4
- Wheels:
    - Diameter: 60 mm
    - Material: nylon
- User:
    - Minimum height: 160 cm
    - Maximum height: 185 cm
    - Maximum weight: 120 kg
- Warranty: 24 months

ENDORFY Meta RD – logistics data:

- Retail box dimensions: 760×635×375 mm
- Weight (net): 20.100 kg
- Weight (gross): 23.300 kg

Set includes:

- 1× ENDORFY Meta RD gaming chair
- 1× Assembly kit

- 1× User and safety manual
