

Product name: ENDORFY Solum Streaming T
Product code: EY1B003

Wanna talk? The ENDORFY Solum Streaming T reporting for duty! It's perfect for any and all missions, be it streaming, chatting, or recording — thanks to the [cardioid](#) characteristic, background noise won't be a problem anymore. And with the mute button on the top, you're always in control.

Included with the ENDORFY Solum Streaming T, you get a stable tripod with a built-in anti-shock mount. Such a little thing, but it makes a world of difference by protecting your microphone from the ~~enemies~~ [vibrations](#) carried through the desk. We also added a foam pop-filter to take care of the explosive consonants — so you can say "Peter Piper picked a peck of pickled peppers" without blowing out your audience's ears. You're welcome!

Senior [Audio](#) Manager

The headliner of today's event — the Solum Streaming T! This senior [audio](#) manager will take your home studio to another level, providing you with a clear and nuanced sound for any occasion.

That's thanks to the [cardioid](#) characteristic — it picks up sound only in the front of the microphone. Additional clarity points are added through the included pop filter, an external panel of mesh that blocks the "explosive" consonants.

A place for everything...

...and everything in its place. The Solum Streaming T comes with a [stable](#) tripod, holding the mic in the chosen position while keeping it mobile and not taking up much space.

To help you get to the next audio level, we built into the tripod an anti-shock mount that helps isolate the microphone from the vibrations carried through the desk whenever you slap it in anger.

Silence [on set!](#)

Don't let the noisy neighbors ruin your stream ever again and keep your private conversations private. You know first-hand that the slightest noise can spoil any recording — but now, the Solum Streaming T has your back.

Simply use the [built-in](#) mute button. The red backlight will let you know when you're off-air.

Our designers deliberately placed the mute button at the bottom of the microphone, so you won't accidentally scratch or brush against the mic and startle your audience. Besides, it's the place you [intuitively](#) reach for in an emergency (rather than the top of the mic) — we tested it ourselves.

Plug & ~~play~~ talk

Setting up the Solum Streaming T is not rocket science. The microphone comes with [everything](#) you need already included — mount it, plug it into your computer and you're good to go. Enjoy the new, superior quality of your audio!

Connect the microphone within seconds with the included [USB-A](#) cable — it's compatible with the most popular operating systems: Windows, macOS, and Linux.

ENDORFY Solum Streaming T – main features:

- Mute button
- High-end shock mount
- Foldable tripodstand
- USB Plug&Play
- Crystal clear sound

ENDORFY Solum Streaming T – technical specifications:

- Product code: EY1B003
- EAN: 5903018665160
- Product type: microphone
- Color: black
- Dimensions: 152×42.7×48 mm
- Microphone type: condenser
- Directivity: cardioid
- Bit depth: 16 bit
- Sampling rate: 48 kHz
- Frequency range: 18–21 000 Hz
- Pop filter: external
- Mount type: tripod
- Shock mount: yes
- Mute button: yes (touch)
- Connectivity:
 - USB-A, cable length: 1.8 m
- Compatibility:
 - Windows
 - macOS
 - Linux
- Warranty: 24 months
