

Product name: ENDORFY Solum Broadcast
Product code: EY1B008

The ENDORFY Solum Broadcast is a [streaming](#) microphone that will knock your socks off with its juicy sound. As soon as you speak, it'll be as if you were sitting right next to your friends and viewers.

Together with the Solum, you get a shock mount and a solid adjustable arm in which we've sneakily hidden the USB cable. Assembly only takes a moment — attach it to your desk, plug into the computer and you're good to go [stream](#). It'll perfectly handle any friendly banter or podcast, and much more. Thanks to the ARGB illumination, it also looks impeccable.

Clear as a mountain spring

Quality is king — if you work with audio, you know that's the number one rule. Your sound needs to be as clear as a mountain spring at dawn, crispy and pristine. Charm your listeners with the warmth and coziness of your voice — take them on a magic ~~carpet~~ [audio](#) ride with the Solum Broadcast.

This is all possible thanks to the [gold-plated](#) membrane, which allows for squeaky-clean recordings and ensures every word can be heard loud and clear. Plus, you get a filter — an external mesh — and a foam cover. The Solum Broadcast is equipped with everything you need to pursue your dreams.

Long arm of the ~~law~~ [mount](#)

Cable clutter doesn't belong on your desk. It's distracting, limiting, and downright frustrating to look at. Let Solum Broadcast help you keep your space in check — by taking up very little of it.

A place for everything and everything in its place, simple.

We already hid the cable of the Solum Broadcast [inside](#) its arm, so you don't have to worry about that tricky part. The robust and damage-resistant arm has a reach of up to 90 cm and will keep the mic steady wherever you need it to be.

Let there be ~~light~~ [ARGB!](#)

Fashion people know that the devil is in the ~~detail~~ [accessories](#) — it's a similar story with peripherals, they can make or break your stream's vibe. The ARGB-lit rim around the Solum Broadcast's frame is eye-catching without being overwhelming. Use it to your advantage, like a stage prop.

You can adjust the backlight on the microphone to best suit the theme of your battle station or your mood. Choose from six available colors with the click of a button, without having to install additional software. And if you see red — yep, you're muted.

Everything [Audio](#) under control

With Solum Broadcast you can easily control the quality of your recordings in real-time. This is a convenient option when podcasting or streaming and will have you sounding like a [pro](#) in any situation.

Just plug your headphones into the mic and become a sound engineer. The

Solum Broadcast has a [built-in](#) 3.5 mm headphone jack along with a potentiometer that lets you conveniently adjust the listening volume at any time.

Hello, world!

The setup of Solum Broadcast is no rocket science, luckily. The microphone has everything you need to get going – forget having to download or purchase additional software, it's not required. Just plug it into your computer and say "Hello" to the world!

This is a great option for those who prefer not to go through time-consuming and even unnecessary software installations. Thanks to the convenient [USB](#) cable, connecting the microphone takes seconds. It's compatible with Windows, macOS, and Linux.
