

Product name: ENDORFY Signum M30 ARGB
Product code: EY2A020

ENDORFY Signum M30 ARGB is a compact microATX PC case that offers wide configuration possibilities. Its airy design with a mesh front panel, three factory-installed Stratus 120 PWM ARGB fans, and dust filters helps keep temperatures stable, while the tempered glass side panel, fast USB-C port, and brilliant ARGB highlight the modern character of the case.

Airy interior and dust protection

The Signum M30 ARGB case was designed with efficient component cooling in mind. The mesh front panel, supported by two factory-installed fans, ensures optimal airflow. Warm air is effectively exhausted through the rear fan and the perforated top section of the case, helping maintain stable temperatures even under load. The case supports the installation of up to seven 120 mm fans. Two magnetic dust filters and the mesh front panel, which also acts as a dust filter, can be easily removed and cleaned.

Three pre-installed PWM ARGB fans

The Signum M30 ARGB comes with three factory-installed Stratus 120 PWM ARGB fans connected to a pre-installed splitter. This means only a single 4-pin PWM connector is required to control them via the motherboard. Developed in collaboration with Synergy Cooling, the fans combine high performance with quiet operation. The durable FDB bearing ensures long lifespan, while PWM control allows precise speed adjustment, including optional fan stop mode.

Tempered glass panel and space for hidden cables

The tempered glass side panel gives the case a modern look and allows you to showcase your computer components. Space behind the motherboard tray, along with well-placed cable cutouts and mounting points for zip-ties, makes it easy to route and hide cables neatly. Proper cable management helps keep the interior tidy, improves the overall aesthetics of the build, and supports better airflow.

Extended compatibility in a compact format

The slim dual-chamber design was created for microATX motherboards and is also compatible with smaller Mini-ITX and FlexATX formats. The Signum M30 ARGB supports modern components, including long graphics cards up to 345 mm, efficient cooling solutions such as air coolers up to 159 mm in height and 240 mm radiators, as well as multiple storage drives (two 2.5" and two 3.5" drives). The case is also equipped with four expansion slots with screw-mounted covers, making it easy to configure a setup tailored to your needs.

Modern I/O panel with USB-C

The top panel of the Signum features a functional I/O panel that provides convenient access to commonly used ports. Available ports include two USB-A 3.2 Gen 1 ports, two 3.5 mm audio jacks (for headphones or speakers and a microphone), and a very fast USB-C 3.2 Gen 2×2 port with bandwidth of up to 20 Gbps. This allows you to conveniently connect devices and accessories without the need for additional adapters.

ARGB lighting with controller

The Signum M30 ARGB is equipped with three factory-installed fans with addressable LEDs, capable of illuminating the case with a full spectrum of colors. The included controller allows you to manage lighting effects even without a compatible motherboard – modes and colors are changed using a button. The controller can also be connected to a motherboard with a 3-pin ARGB header, allowing lighting control via dedicated software.

ENDORFY Signum M30 ARGB – main features:

- Three pre-installed Stratus 120 PWM ARGB fans
- Airy and easily accessible front panel
- Practical magnetic dust filters
- Support for radiators up to 240 mm
- Support for tower coolers up to 159 mm
- Compact dimensions with flexible component layout options
- Tempered glass side panel
- Efficient cooling of components
- Fast USB-C port on the top panel
- Convenient solutions for cable management
- ARGB lighting with controller

ENDORFY Signum M30 ARGB – technical specifications:

- Product code: EY2A020
- EAN: 5903018668871
- Product type: PC case
- Color: black
- Dimensions (H×W×L): 387×205×401 mm
- Motherboard form factor: microATX, Mini-ITX, FlexATX
- Graphics card clearance (GPU): 345 mm
- CPU cooler clearance: 159 mm
- Power supply clearance (PSU): 180 mm
- Expansion slots: 4
- Number of bays:
 - internal:
 - 2× 3.5"
 - 2× 2.5"
- Cooling system:
 - Maximum number of fans: 7
 - Number of fans included: 3
 - Front: 2× Stratus 120 PWM ARGB fan (200–1400 rpm)
 - Rear: 1× Stratus 120 PWM ARGB fan (200–1400 rpm)
- Radiator compatibility:
 - Front: 1× 240
 - Top: 1× 240
- Dust filters:
 - Front (mesh panel)
 - Top
 - Bottom
- Front I/O:
 - 1× USB-C 3.2 Gen 2x2 (up to 20 Gbps)
 - 2× USB-A 3.2 Gen 1 (up to 5 Gbps)
 - 1× headphones (minijack 3.5 mm)

- 1× microphone (minijack 3.5 mm)
 - 1× POWER button
 - 1× RESET button
- Warranty: 36 months

ENDORFY Signum M30 ARGB – logistics data:

- Retail box dimensions: 436×271×475 mm
- Weight (net): 4.5 kg
- Weight (gross): 5.4 kg

Set includes:

- 1× ENDORFY Signum M30 ARGB case
- 3× Pre-installed Stratus 120 PWM ARGB fan
- 1× Pre-installed PWM splitter
- 1× Pre-installed ARGB lighting controller
- 1× Installation accessories
- 1× User and safety manual
