

Product name: ENDORFY Ventum 400 ARGB

Product code: EY2A023

Ventum 400 ARGB combines a compact form with full ATX platform support and a refined design inspired by the Ventum 200 series. The design fits naturally into a wide range of setups without unnecessary embellishments, while maintaining a distinct identity.

Four Stratus 120 PWM ARGB fans provide efficient cooling and lighting right out of the box, while the spacious interior supports 240/280 mm AiO coolers on the top and a 360 mm front-mounted radiator. Additional features include USB-C port up to 10 Gbps and magnetic PVC dust filters.

Built for flexible cooling

Ventum 400 ARGB supports a wide range of cooling configurations — from 240 and 280 mm AiO coolers mounted on the top to radiators up to 360 mm at the front. Its thoughtfully designed layout delivers strong thermal performance without increasing the case footprint. This allows for configurations ranging from compact builds to performance-focused setups. The case also supports CPU air coolers up to 164 mm.

Efficient airflow, simplified control

Four pre-installed Stratus 120 PWM ARGB fans provide efficient airflow and vibrant lighting from the moment you power on the system. Ventum 400 ARGB also supports future expansion, with room for up to eight 120 mm fans or five 140 mm fans, including three 140 mm units at the front.

An integrated PWM splitter helps keep cabling organized, while the ARGB controller makes lighting customization easy. Automatic PWM adjustment balances quiet operation with effective cooling performance.

Full ATX support in a compact case

Ventum 400 ARGB combines a compact form factor with full support for Mini-ITX, mATX, and ATX motherboards. It supports graphics cards up to 345 mm and ATX power supplies, while still leaving room for storage drives and convenient cable routing. The case also includes seven expansion slots and storage support for one 3.5" drive and three 2.5" drives. Its optimized interior layout makes it easy to build a high-performance system without compromises.

Everything within reach

The top-mounted I/O panel provides easy access to essential ports, whether your PC sits on or under the desk. It includes high-speed USB-C 10 Gbps, two USB-A 5 Gbps ports, and a combo audio jack for headphones or a microphone. The layout makes everyday use easier and allows for quick device connections without reaching behind the case. The panel also includes dedicated power and reset buttons, along with a subtle LED indicator.

Clean, cohesive design

The subtly curved front panel gives Ventum 400 ARGB a refined look while visually lightening its overall form. The finely perforated front mesh improves airflow while adding a distinctive visual accent. A tempered glass side panel showcases the interior, while ARGB lighting adds depth without overwhelming the aesthetic. The

overall styling stays true to the Ventum 200 series — refined, cohesive, and thoughtfully crafted.

Easy installation and a clean interior

Two side panels provide easy access to the interior, while the optimized layout makes the area around the top section of the motherboard — typically the tightest space inside the case — significantly easier to work with. This simplifies cooler installation and cable routing. A dedicated cable channel and anchor system help keep the interior organized, while removable case elements and magnetic PVC dust filters simplify cleaning and maintenance.

ENDORFY Ventum 400 ARGB – main features:

- Tempered glass side panel
- Mesh front panel
- 4× Stratus 120 PWM ARGB fans included
- Removable dust filters
- Broad cooling compatibility
- Compact case design
- ARGB lighting

ENDORFY Ventum 400 ARGB – technical specifications:

- Product code: EY2A023
- EAN: 5903018669373
- Product type: PC case
- Color: black
- Dimensions (H×W×L): 488×215×409 mm
- Motherboard form factor: Mini-ITX, mATX, ATX
- Graphics card clearance (GPU): 345 mm
- CPU cooler clearance: 164 mm
- Power supply clearance (PSU): 270 mm (without HDD support)
- Expansion slots: 7
- Number of bays:
 - internal:
 - 1× 3.5"
 - 3× 2.5"
- Cooling system:
 - Maximum number of fans: 8× 120 mm or 5× 140 mm
 - Number of fans included: 4
 - Front: 3× Stratus 120 PWM ARGB fan (200–1400 rpm)
 - Rear: 1× Stratus 120 PWM ARGB fan (200–1400 rpm)
- Radiator compatibility:
 - Front: 1× 120, 240, 280, 360 mm
 - Top: 1× 240, 280 mm
 - Rear: 1× 120 mm
- Dust filters:
 - Front: mesh
 - Top: magnet
 - Bottom: magnet
- I/O panel:

- 1× USB-C
 - 2× USB-A
 - 1× combo jack (headphones/microphone)
 - 1× POWER button
 - 1× RESET button
- Controllers:
 - 1× PWM splitter
 - 1× ARGB controller
- Warranty: 36 months

ENDORFY Ventum 400 ARGB – logistics data:

- Retail box dimensions: 530×265×458 mm
- Weight (net): 5.6 kg
- Weight (gross): 6.6 kg

Set includes:

- 1× ENDORFY Ventum 400 ARGB PC case
- 4× Stratus 120 PWM ARGB fan
- 1× Mounting set
- 1× User manual
