

Product name: ENDORFY Fortis 5

Product code: EY3A008

The ENDORFY Fortis 5 may look small, but it's as cool as an open fridge on a hot summer night. At only 15.9 cm in height – it can easily keep CPU temperatures low and even fit into the smallest of cases. Its central feature is the Fluctus 140 PWM fan, attached to an [asymmetrical](#) heatsink that's ready for anything. This combo provides you with silence, incredible cooling performance, more silence, an optional semi-passive mode... Have we mentioned how silent it is yet?

The ENDORFY Fortis 5 is compatible with popular sockets. You can easily install it in just a few minutes, even if it's your first time! Imagine the look on the face of your BFFs when you show them your newly built computer (we bet it will look something like this: 😊).

Let's make some ~~noise~~ [silence](#)!

The Fortis 5 is so [quiet](#) that we even had to check a few times to see if it was actually running. If you have exceptional hearing then you might be able to catch it while rendering some 3D objects or running intensive technical simulations.

A constant stream of airflow is supplied by the [award-winning](#) Fluctus 140 PWM fan, which also features an optional semi-passive mode. The blades have been shaped in such a way as to blow as much air as possible through the densely arranged heatsink fins. The fan reduces temperatures to such an extreme degree that we have a theory: if our plans to create the Fluctus 1400m fan ever come to fruition, another ice age might be unleashed on the world. Don't worry though, you're safe. For now.

Each blade has a wavy edge, which further reduces fan noise (psychoacoustic optimizations used in Fluctus fans are patent pending).

~~Winter~~ [heatsink](#) is coming

The Fortis 5 is 15.9 cm tall – enough to easily keep CPU temperatures low. You can push your PC to its limits for hours on end, without the CPU having to break a sweat.

Such effective cooling is possible thanks to the [asymmetrical](#) heatsink with densely packed fins, which removes heat from the CPU like few others. The

optimized base with six direct-touch heatpipes drastically improves the dissipation of heat. The Fortis 5 is designed specifically for unidirectional airflow for the best cooling performance. Imagine how green with envy your friends will be when they see this combo!

It couldn't be easier

Installing the Fortis 5 is quick and easy thanks to the mounting bracket, even if it's your first time assembling a PC. It truly couldn't be easier!

Non-creepy ~~pasta~~ paste

The Fortis 5 comes with a tube of efficient and easy-to-apply Pactum PT-3 thermal paste, with an amount sufficient for up to 3-4 applications. There's nothing to fear here, we tested it ourselves.

6-year warranty

Here at ENDORFY, we have the highest levels of confidence in our products. That's why we offer a 6-year warranty on the entire Fortis 5 cooling system (although you probably won't have to use it anyway).

ENDORFY Fortis 5 – main features:

- High performance CPU cooling
- 140 mm Fluctus fan
- Extended fan speed range
- Optional semi-passive mode
- Multi-socket compatibility
- 6-year warranty
- Thermal paste included

ENDORFY Fortis 5 – technical specifications:

- Product code: EY3A008
- EAN: 5903018665856
- Product type: CPU air cooler
- Color: black
- Radiator dimensions: 159×144×107 mm
- TDP: 220 W
- Radiator type: tower
- Heatpipes: 6

- Maximum number of fans: 2
- Fans (included): 1
- Included fans:
 - 1× Fluctus 140 mm
 - Fan dimensions: 140×140×25 mm
 - Fan speed: 250 (±100) – 1400 (±10%) RPM
 - Control (speed): PWM
 - Connector (fan): 4-pin (power, male + female)
 - Voltage (fan): 12 V
 - Current (fan, peak): 0.20 A
 - Fan bearing: FDB
 - MTBF: 100 000 h
- CPU compatibility:
 - AMD: AM5, AM4, AM3(+), AM2(+), FM2(+), FM1
 - Intel: LGA1851, LGA1700, LGA1200, LGA1150, LGA1151, LGA1155, LGA1156, LGA2066, LGA2011-3, LGA2011 (square ILM)
- Warranty: 72 months

ENDORFY Fortis 5 – logistics data:

- Retail box dimensions: 165×140×200 mm
- Weight (net): 805 g
- Weight (gross): 1.134 kg
- Master carton dimensions: 590×510×220 mm
- Master carton weight (gross): 14.60 kg
- Product quantity in master carton: 12 pcs

Set includes:

- 1× Fortis 5 heatsink
- 1× Fluctus 140 mm fan
- 1× Mounting accessories
- 1× Pactum PT-3 thermal compound
- 1× User and safety manual
