

Product name: ENDORFY Fera 5 Black ARGB

Product code: EY3A012

This dark-colored high-performance air cooling system has been created jointly with Synergy Cooling. From the multiple-award-winning Fluctus 120 PWM ARGB fan with a fan-stop function (allowing an optional semi-passive mode setup) to four heatpipes connecting the base to an asymmetrical heatsink, we designed everything so that it ensures the best cooling efficiency in its class without a loud hum.

High cooling efficiency

Fera 5 Black ARGB easily keeps the processor temperature low even when the computer is working its hardest. This is thanks to an asymmetrical densely-finned heatsink – its base has good contact with the surface of the processor and four heatpipes improve transfer of high heat. The cooler is also optimized for one-direction airflow, which ensures the highest cooling efficiency in its class.

Fluctus 120 PWM ARGB fan

Fera 5 Black ARGB cooler is so silent that you might not hear it at all. This is because airflow is handled by the multiple-award-winning Fluctus 120 PWM ARGB fan with fan-stop (for optional semi-passive mode) that we set on a sturdy FDB bearing.

We designed it together with Synergy Cooling - its blades have been shaped for optimal airflow in demanding circumstances and for densely-finned heatsinks. In addition, each fan blade is finished with a wavy shape that muffles any irritating hum (psycho acoustic optimization of Fluctus fans is patent pending).

Classy black finish

It's no secret that black components look equally good both in classic cases and when accompanied by backlit elements. This is why every part of the Fera 5 Black ARGB cooler is a deep black hue that will fit your PC perfectly.

ARGB backlight

The fan and the top panel, equipped with ARGB backlight, can shine in any of 16 million colors. The illumination works particularly well at night or in a dimly lit room, whether in a static color mode, wave, rainbow, or other dynamic effects.

Nano-Reset ARGB controller included

You don't need a compatible motherboard or PC case to set up the backlight effects for Fera 5 Black ARGB. The cooler's set includes a Nano-Reset ARGB controller that lets you choose the color & mode of the backlight or turn off LED lights completely.

Quick and easy assembly

Thanks to a mounting frame you'll be able to install the cooler in your PC very quickly, even if it's your first time installing any component. Keep in mind that Fera 5 Black ARGB is compatible with AMD and Intel bases.

Thermal paste included

Fera 5 Black ARGB comes equipped with an efficient and easy-to-apply Pactum PT-3 thermal paste. There's enough of it for you to assemble the cooler a few

times.

6-year warranty

We are convinced of the quality of any equipment with the ENDORFY logo. This is why we include a long, 6-year warranty with Fera 5 Black ARGB, for the entire cooling system (but we bet you will not need it anyway).

ENDORFY Fera 5 Black ARGB – main features:

- High-efficiency processor cooling system
- Black finish
- ARGB backlight
- Nano-Reset ARGB controller
- Fluctus 120 PWM fan
- Extended fan speed range
- Optional semi-passive mode
- Compatible with multiple processors
- 6-year warranty
- Thermal paste included

ENDORFY Fera 5 Black ARGB – technical specifications:

- Product code: EY3A012
- EAN: 5903018667911
- Product type: CPU air cooler
- Color: black
- Heatsink dimensions: 155×127×77 mm
- TDP factor: 220 W
- Radiator type: tower
- Heatpipes: 4
- Maximum number of fans: 2
- Number of fans (included): 1
- Included fans:
 - 1× ENDORFY Fluctus 120 PWM ARGB
 - Fan size: 120×120×25 mm
 - Fan speed: 250 (±100) – 1800 (±10%) RPM
 - Control (speed): PWM
 - Power connection (fan): 4-pin (male and female)
 - Voltage (fan): 12 V
 - Current (fan, peak): 0.30 A
 - Power connection (LED): 3-pin (male and female)
 - Voltage (LED): 5 V
 - Current (LED, peak): 0.55 A
 - Fan bearings: FDB
 - MTBF: 100 000 h
- Processor compatibility:
 - AMD: AM5, AM4, AM3(+), AM2(+), FM2(+), FM1
 - Intel: LGA1851, LGA1700, LGA1200, LGA115X, LGA775, LGA2066, LGA2011-3, LGA2011 (square ILM), LGA1366
- Warranty: 72 months

ENDORFY Fera 5 Black ARGB – logistics data:

- Retail box dimensions: 136×120×186 mm
- Weight (net): 600 g

- Weight (gross): 850 g
- Master carton dimensions: 428×380×395 mm
- Master carton weight (gross): 16.10 kg
- Product quantity in master carton: 18 pcs

Set includes:

- 1× ENDORFY Fera 5 Black ARGB heatsink
- 1× ENDORFY Fluctus 120 PWM ARGB fan
- 1× Nano-Reset ARGB controller
- 1× Assembly kit
- 1× ENDORFY Pactum PT-3 thermal paste
- 1× Safety and instruction manual
