

Product name: ENDORFY Stratus 120 White PWM ARGB
Product code: EY4A020

The Stratus 120 White PWM ARGB is the perfect blend of performance, silence, and modern design. Its optimized rotor, advanced FDB bearing, and striking ARGB lighting, combined with precise PWM control, ensure maximum cooling efficiency and long-term reliability — all backed by a 5-year warranty.

Excellent cooling even in tough conditions

Its optimized rotor and precisely engineered blades deliver maximum airflow. Designed in collaboration with Synergy Cooling, the Stratus 120 White PWM ARGB handles even the most demanding setups — an outstanding choice for cases with dense dust filters and tightly finned radiators.

Enhanced frame

There's no room for guesswork here. Every part of the frame has been engineered to minimize vibration and turbulence. Its rigid structure, strategically placed cutouts, and optimized air inlets and outlets ensure smooth airflow and near-silent fan operation.

Precise control with PWM

The fan delivers flawless performance straight out of the box. PWM technology allows you to fine-tune the speed with surgical precision to match your system's needs. Stratus operates from an almost inaudible 200 RPM up to a powerful 1400 RPM, maintaining the perfect balance between silence and cooling efficiency.

Fan stop – silence when you need it

The fan automatically comes to a halt whenever the system doesn't require cooling. By fine-tuning the fan curve, you can create an ultra-quiet, semi-passive cooling setup. Absolute silence, reduced power consumption, and complete component protection = peak performance without compromise.

High-quality bearing

The advanced FDB bearing minimizes friction and reduces noise while keeping components cool. With its tight construction, premium materials, and an MTBF of up to 80,000 hours, the fan runs smoothly for years, ensuring long-term reliability and durability.

A design icon

The fan blades don't just deliver top-tier cooling — they also dazzle with ARGB lighting. Vivid colors and smooth light transitions give any system a timeless, elegant look — a modern classic that perfectly combines performance and style.

Reliability you can count on

The fan is engineered for long-lasting durability. Premium materials and precise craftsmanship ensure dependable performance — backed by a 5-year warranty that speaks for itself.

ENDORFY Stratus 120 PWM ARGB – main features:

- Optional semi-passive mode
- Wide speed range with PWM control

- Long-life FDB bearing
- High performance in restricted airflow environments
- White finish combined with ARGB lighting

ENDORFY Stratus 120 White PWM ARGB – technical specifications:

- Product code: EY4A020
- EAN: 5903018668840
- Product type: PC fan
- Fan dimensions: 120×120×25 mm
- Fan bearing: FDB
- Fan speed: 200 (±100) – 1400 (±10%) RPM
- Control (speed): PWM
- Connector (fan): 4-pin (female)
- Voltage (fan): 12 V
- Current (fan, peak): 0.25 A
- Control (LED): ARGB
- Connector (LED): 3-pin (female)
- Voltage (LED): 5 V
- Current (LED, peak): 0.30 A
- Cable length: 600 mm
- Lifespan (MTBF): 80 000 h
- Warranty: 60 months

ENDORFY Stratus 120 White PWM ARGB – logistics data:

- Retail box dimensions: 145×30×130 mm
- Weight (net): 132.5 g
- Weight (gross): 172.5 g
- Master carton dimensions: 455×330×285 mm
- Master carton weight (gross): 11.0 kg
- Product quantity in master carton: 80 pcs

Set includes:

- 1× Stratus 120 White PWM ARGB fan
- 1× Set of mounting screws
- 1× User manual
