

Product name: ENDORFY Thock TKL Pudding Blue
Product code: EY5A004

The ENDORFY Thock TKL Pudding Blue is a gamer and technology fan's best friend. With a width of just over 42 cm, it easily fits even on small desks, freeing up space for other gadgets – like a fancy mic or a headset stand.

Knowing it'll work long hours we equipped it with Pudding ~~desserts~~ [keycaps](#) supported by an ARGB backlight. This winning combo looks insane on camera, so hit that "Start stream" button and show it off to the world. Under each key, you'll find a Kailh Blue mechanical switch – the best choice if you want to be certain the key has been activated.

Small is beautiful

The Thock TKL Pudding Blue is worthy of technology heroes who appreciate the unique design and unpretentious size. It fits even on small desks, leaving more room for your precious collectibles or a mic stand.

To make all of that happen, we ditched the numpad [entirely](#). The Thock TKL Pudding Blue is small and ready for "Action!".

Exquisite [Pudding](#) keycaps

The Thock TKL Pudding Blue features 87 [Pudding](#) keycaps made of durable PBT. No one walks away from them.

They'll brighten up your home office like no other – they'll shimmer with all the colors of the rainbow or whichever hue matches your setup best. You can also turn the backlighting off completely and enjoy the subtle beauty of the keyboard. It's all thanks to the special technique we used to bring these two-colored keycaps to life – Double Shot. During that process, two separate layers of heavy-duty PBT polymer are injected into the mold. The rigid top keeps the keycaps from wearing out and the milky white bottom (where the name comes from) shines with bright ARGB light.

No rest for the ~~wicked~~ [switches](#)

Every technology hero deserves gear [switches](#) that'll keep up with the everyday challenges of life.

Don't let faulty equipment slow you down – face the music, it's time to upgrade. We want you to succeed, so we equipped the Thock TKL Pudding Blue with Kailh Blue mechanical switches. The rest is history.

Kailh Blue are clicky switches, known for their distinctive activation sound. It's clear when the keypress actually happens, and they work well in scenarios requiring fast and flawless movements. They're also durable, with an estimated lifespan of as many as 50 m clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

Armored keyboard

Built to last. The chassis of the Thock TKL Pudding Blue will survive everything short of an apocalypse. Take it to the office, take it to your friend's, it's prepared for conditions tougher than your backpack. It's basically an armored ~~vehicle~~

[device](#) – we crash-tested it ourselves.

Its chassis reinforced with an [aluminium](#) top is rigid and damage-resistant – ready to withstand the toughest conditions. It firmly holds the desk, so it doesn't move around even when you're gaming or working for hours on end. It looks the part too – engraved patterns on the bottom and the ARGB backlight give it a fierce edge.

My name is RGB. ARGB

Let's face it – keyboards without a backlight are fine. But if you like the darkness of the night, want to stand out from the crowd, or impress your followers, then ARGB is a [must-have](#).

Customize the look of the Thock TKL Pudding Blue to complete the battle station of your dreams. Highlight each of the 87 keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard – without installing anything.

Perhaps some will say it's unnecessary and a gizmo (you can always disable it entirely)... but if you like to play with the look of your setup every now and then, the ARGB backlighting is the thing for you.

Adjustable angles

To make clicking even more comfortable, we equipped the Thock TKL Pudding Blue with two-step adjustable feet. With them, you can place the keyboard at an angle that best suits your needs.

Cable management made easier

The Thock TKL Pudding Blue keyboard chassis allows you to route the cable in three different ways, helping you make better use of your desk space.

It's possible thanks to a detachable cable and three custom-made channels on the bottom of the keyboard, allowing you to arrange the cable conveniently – for example, closer to the grommets or at the edge of the table.

Everything under control

Do you like to have everything under control? We thought of that – and equipped the Thock TKL Pudding Blue with functional and feature-packed [software](#).

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock TKL Pudding Blue – main features:

- TKL mechanical keyboard
- Modern design
- Configurable RGB backlighting
- High durability
- Kailh Blue mechanical switches
- Durable PBT Pudding keycaps

- Detachable cable
- Two-step feet
- N-Key Rollover function
- Functional software

ENDORFY Thock TKL Pudding Blue – technical specifications:

- Product code: EY5A004
- EAN: 5903018665542
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Dimensions: 361.5×140×42.5 mm (L×W×H)
- Number of keys: 87
- Switch type: Kailh Blue RGB
- Switch color: blue
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: milky-black (pudding)
