

Product name: ENDORFY Omnis Brown
Product code: EY5A029

The ENDORFY Omnis Brown is a powerful and versatile ally – with it you can defeat virtual enemies, prepare reports for your boss or write a few pages for a blog. All in the same evening, if you're good.

You'll do it all on durable PBT keycaps, illuminated with a striking ARGB backlight. ~~Covered~~ [Shielded](#) by an aluminum top with a volume wheel, the keyboard hides the Kailh Brown mechanical switches. These highly responsive switches give you gentle feedback when activated, so you can be sure that the key pressed equals an action performed, simple as that. And thanks to the magnetic wrist rest you won't even realize you've been at it for a "while".

A ~~man~~ [keyboard](#) for all seasons

Omnis Brown is a keyboard ready for it all – are you?

It'll charm you with its comfortable size, but you'll truly fall in love with the numpad. Some say that nowadays it's an unnecessary gimmick, but these few buttons make tables, spreadsheets, and quick calculations so much easier. Plus, when you log out of your home office and activate the creation & entertainment mode, you can use those little guys to set up custom macros and handy hotkeys. Omnis Brown is a full-sized mechanical keyboard with an aluminium top. We designed it to flawlessly support you in every task – without warping or getting scratched. Additionally, it stays firmly put on the desk and doesn't slide around even during intensive "work".

Universal Kailh Brown switches

Omnis Brown is an all-purpose keyboard for both work and entertainment. Under each key lies a hidden Kailh Brown switch. They'll never give you up or let you down – no matter the ~~quest~~ [task](#).

Kailh Brown are tactile switches, made for situations that require smooth and subtle movements. They're also durable, with an estimated lifespan of as many as 50 m clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

And as a bonus, the keyboard is quite... quiet. We're sure it'll find many fans among night owls (and their grateful roommates).

Time to say goodbye

The Omnis Brown is no feeble thing – you don't have to walk on eggshells around it. This keyboard gives you the freedom to work, create and play for hours and hours on end, without the fear of ruining the keys. Even after months of intensive clicking, each one will still look [brand new](#).

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) – PBT is like armor that also keeps your fingers in place.

The one you can ~~rely~~ rest on

Everyone needs a little support in their life – and your wrists [definitely](#) do too.

So here comes the wrist rest, you can thank us later. It's the support you need if your clicking sessions get out of control sometimes or happen to place your keyboard on the edge of the desk. We've heard rumors some use it as a cup coaster, but we cannot recommend that.

Equipped with magnets, the wrist rest is easy to install and holds the keyboard tight. If you prefer, you can even place it at a distance from your Omnis – thanks to the wide rubber feet, it remains stable in any position.

Turn it up (or down)

That one annoying colleague on the call is getting on your nerves? Or maybe the bass is about to drop, but there's no way in hell you can alt-tab now? Omnis Brown's got it covered. All it takes is a [subtle](#) flick of your hand to have full control (over the volume at least, but we'll try to patch in the control over the world soon™).

It's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

My name is RGB. ARGB

Let's face it – keyboards without a backlight are fine. But if you like the darkness of the night, want to stand out from the crowd, or impress your friends [followers](#), then ARGB is a must-have.

Customize the look of the Omnis Brown to complete the battle station of your dreams. Highlight each of the 104 keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard – without installing anything.

Perhaps some will say it's unnecessary and a gizmo (you can always disable it entirely)... but if you like to play with the look of your setup every now and then, the ARGB backlighting is the thing for you.

Adjustable angles

To make clicking even more comfortable, we equipped the Omnis Brown with two-step adjustable feet. With them, you can place the keyboard at an angle that best suits your needs.

Cable management made easier

The Omnis Brown keyboard chassis allows you to route the cable in three different ways, helping you make better use of your desk space.

Everything under control

Do you like to have [everything](#) under control? We thought of that – and equipped the Omnis Brown with functional and feature-packed software.

We fondly refer to it as “God mode”. With its help, you’ll adjust all keyboard settings to your needs – whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Omnis Brown – main features:

- Full-size mechanical keyboard with a numeric block
- Modern design
- Configurable RGB backlighting
- High durability
- Palm rest with magnetic fastening
- Metal volume wheel
- Kailh Brown mechanical switches
- Durable PBT keycaps
- Detachable cable
- Two-step feet
- N-Key Rollover function
- Functional software

ENDORFY Omnis Brown – technical specifications:

- Product code: EY5A029
- EAN: 5903018664804
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Dimensions: 453×210×45 mm (L×W×H)
- Number of keys: 104
- Switch type: Kailh Brown RGB
- Switch color: brown
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black
- Backlight type: RGB
- Connectivity:
 - Gold-plated USB, cable length: 1.8 m
- Keyboard specific features:
 - N-Key Rollover: full
 - Anti-ghosting: full
 - Programmable macros: yes
 - Palm rest: yes
- Compatibility:
 - Windows
 - macOS
 - Linux
- Software: yes
- Software compatibility: Windows 10
- Warranty: 24 months

ENDORFY Omnis Brown – logistics data:

- Retail box dimensions: 500×190×70 mm

- Weight (net): 1.15 kg
- Weight (gross): 1.62 kg
- Master carton dimensions: 515×375×400 mm
- Master carton weight (gross): kg
- Product quantity in master carton: 10 pcs

Set includes:

- 1× Omnis Brown keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool
- 1× Safety instruction
