

**Product name: ENDORFY Omnis Pudding Blue**  
**Product code: EY5A031**

The ENDORFY Omnis Pudding Blue is a keyboard that your friends will envy – there's no doubt about it. It's comfortable, shines like a [diamond](#), and provides that nice little boost whether working or playing. With an ace like this at your disposal, you'll never again so much as glance at other keyboards.

On the reinforced chassis you'll find 104 Pudding PBT keycaps, illuminated by a dazzling ARGB backlight. Upon closer inspection, you'll learn that beneath the keys lie hidden Kailh Blue mechanical switches. With them you can rest assured that your every command will be followed to the letter – they'll let you know with their distinctive click. To make your life even easier, we added a ~~comfy-pillow~~ [magnetic wrist rest](#) and a volume wheel.

### **The keyboard you won't take your hands off**

The Omnis Pudding Blue is a mechanical keyboard you won't be able to take your hands off.

It's SUPER comfortable to use – Caps Lock intended. It doesn't tire your wrists even after hours upon hours upon hours of use. And the numpad makes it all a breeze: stream management, complex calculations, tables, spreadsheets, macros, and more. Done and dusted, with flying ([ARGB](#)) colors!

The Omnis Pudding Blue is a full-sized mechanical keyboard with an aluminum top. We designed it to flawlessly support you in every task – without warping or getting scratched. Additionally, it stays firmly put on the desk and doesn't slide even during [intensive](#) work.

And it looks good too – the distinctive shape and ARGB backlight give it a fierce edge.

### **[Pudding](#) rock star**

A wise man once told us that Omnis Pudding Blue is like a rock star among keyboards. That's probably because of the 104 Pudding keycaps with ARGB shining unabashedly on its aluminum top.

At the click of a button, you can set the colors you want – for example, change its ambient glow to pulsating neon blaze. Or highlight only a few selected keys. Or... You get the drill, there are a lot of options. In any configuration, your Puddings will be ready to rrrumble!

It's all thanks to the special technique we used to bring these two-colored keycaps to life – Double Shot. During that process, two separate layers of heavy-duty PBT polymer are injected into the mold. The rigid top keeps the keycaps from wearing out and the milky white bottom (where the name comes from) shines with bright ARGB light.

### **Switches ready for action**

When you live fast, you deserve hardware that can keep up with you. That's why the Omnis Pudding Blue comes equipped with switches always ready for action – Kailh [Blue](#). They'll heed your every call.

Kailh Blue are clicky switches, known for their distinctive activation sound. It's clear when the keypress actually happens, and they work well in scenarios requiring fast and flawless movements. They're also durable, with an estimated lifespan of as many as 50 [m](#) clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

### **The more [\(support\)](#), the merrier**

This isn't our first rodeo, so we know first-hand that long hours of clicking mean tired hands. And tired hands in turn mean absolute disaster – work unfinished, a game rescheduled, a conversation abruptly interrupted. That's why with Omnis Pudding Blue we're giving you [extra](#) support – a comfortable wrist rest.

Equipped with magnets, it's easy to install and holds the keyboard tight. If you prefer, you can even place it at a distance from your Omnis – thanks to the wide rubber feet, it remains stable in any position.

### **Loud and proud**

Some days you just want to sit down, close your eyes and blast your favorite track for the neighbors to enjoy too. With the Omnis Pudding Blue, all it takes is a flick of your hand to take it to the next (louder) level. Quieter is also possible – but is it really what you want right now?

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound [without](#) taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

### **My name is RGB. ARGB**

Let's face it – keyboards without a backlight are fine. But if you like the darkness of the night, want to stand out from the crowd, or impress your followers, then ARGB is a must-have.

Customize the look of the Omnis Pudding Blue to complete the battle station of your dreams. Highlight each of the 104 keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard – without installing anything.

Perhaps some will say it's unnecessary and a gizmo (you can always disable it entirely)... but if you like to play with the look of your setup every now and then, the ARGB backlighting is the thing for you.

### **Adjustable angles**

To make clicking even more comfortable, we equipped the Omnis Pudding Blue with two-step adjustable feet. With them, you can place the keyboard at an angle that best suits your needs.

### **Mess [Cable](#) management made easier**

The Omnis Pudding Blue keyboard chassis allows you to route the cable in [three](#) different ways, helping you make better use of your desk space.

It's possible thanks to a detachable cable and three custom-made channels on the bottom of the keyboard, allowing you to arrange the cable conveniently – for example, closer to the grommets or at the edge of the table.

### **Everything under control**

Do you like to have [everything](#) under control? We thought of that – and equipped the Omnis Pudding Blue with functional and feature-packed software.

We fondly refer to it as “God mode”. With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

### **ENDORFY Omnis Pudding Blue – main features:**

- Full-size mechanical keyboard with a numeric block
- Modern design
- Configurable RGB backlighting
- High durability
- Palm rest with magnetic fastening
- Metal volume wheel
- Kailh Blue mechanical switches
- Durable PBT Pudding keycaps
- Detachable cable
- Two-step feet
- N-Key Rollover function
- Functional software

### **ENDORFY Omnis Pudding Blue – technical specifications:**

- Product code: EY5A031
- EAN: 5903018664996
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Dimensions: 453×210×45 mm
- Number of keys: 104
- Switch type: Kailh Blue RGB
- Switch color: blue
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: milky-black (pudding)
- Backlight type: RGB
- Connectivity:
  - Gold-plated USB, cable length: 1.8 m
- Keyboard specific features:
  - N-Key Rollover: full
  - Anti-ghosting: full
  - Programmable macros: yes
  - Palm rest: yes
- Compatibility:
  - Windows

- macOS
  - Linux
- Software: yes
- Software compatibility: Windows 10
- Warranty: 24 months

**ENDORFY Omnis Pudding Blue – logistics data:**

- Retail box dimensions: 500×190×70 mm
- Weight (net): 1.15 kg
- Weight (gross): 1.62 kg
- Master carton dimensions: 515×375×400 mm
- Master carton weight (gross):
- Product quantity in master carton: 10 pcs

**Set includes:**

- 1× Omnis Pudding Blue keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool
- 1× Safety instruction
