

Product name: ENDORFY Thock Compact Wireless Brown
Product code: EY5A067

The ENDORFY Thock Compact Wireless is one of our favorites – we’re beaming with pride every time we look at this little ~~marvel~~ [keyboard](#).

We equipped it with 61 buttons crowned with durable PBT keycaps. Made with Double Shot technology, so you can click to your heart’s delight, and they’ll still be fresh as a daisy. Underneath each key lurks a proper ~~strongman~~ [switch](#) – the Kailh Box Brown. In comparison to its older brother, the standard Kailh Brown, it has a beefed-up stem, making it virtually indestructible. We’re talking up to 70 m clicks here. And the cherry on top – hot-swap for the ultimate pro experience. Our keyboard is compatible with both 3- and 5-pin switches, so you can pick your weapon of choice.

Small, smaller, ~~the-smallest~~ [Compact](#)

If you like minimalist designs and neatly arranged spaces, you’ll like the Thock Compact Wireless Brown too. It’s small, sturdy, and always ready for a new adventure.

It’s one-size-fits-all, so it suits even the most crowded desks. Its design allows you to place the cable in one of three custom-made channels on the bottom. Route it closer to the grommets or at the edge of the table for easier cable management.

Multiple connections available

It’s a three-lane highway with the Thock Compact Wireless Brown, so you can ~~rule the world~~ [work](#) on several devices without the hassle of untangling the cables. Make better use of your home office – sit back on a comfortable couch instead of being permanently desk-bound.

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz Wi-Fi connections. For a more old-school vibe, use the included USB-C cable.

Hot-swap ft. Kailh Brown

When one spends most of the day online, a versatile and well-rounded ~~support~~ [keyboard](#) is a bare necessity. We get it.

That’s why we installed 61 Kailh Box Brown mechanical switches – these bad boys can fit so much work in them, be it at home or in the office. And they’re quiet like a thief with maxed out Sneaking too. The comparison isn’t coincidental at all, they’ll surely steal your heart.

Kailh Box Brown are “tactile” switches with clear activation feedback for those crisp, precise clicks you’re after. In comparison to the standard Kailh Brown, they have an additionally reinforced stem structure. With gear like this, they’re an elite commando unit ready for a mission – tireless and [ultra-durable](#). 70 m clicks are no joke.

The Thock Compact Wireless Brown also has a truly PRO option for tech geeks – hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a

wide range of models available on the market.

Double Shot of epic

The Thock Compact Wireless Brown is our love at first ~~sight~~ [click](#). When we first laid our hands on it, we knew we won't glance at other keyboards ever again.

This puppy is nothing short of epic – and handles even the most intense clicks like a pro (it survived a few of our own ragequits already). After months of long hours and sleepless nights, the keycaps still look so pristine that friends ask about our keycare routine.

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line is that our keys don't require additional surface finish (unlike painted keycaps) – PBT is like armor that also keeps your fingers in place.

~~Rock~~ Thock solid

There's only one way to sum up the Thock Compact Wireless Brown – [tough](#) as hell. It ain't afraid of no backpacks because it's resistant to punches and scratches. It could probably handle an alien invasion too, but we're kinda glad we don't need that theory proved.

Its reinforced ~~armor~~ [chassis](#) gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

Let there be ~~light~~ ARGB

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then ARGB is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With the Thock Compact Wireless Brown, you can easily customize the look of the keyboard to match the rest of your ~~battle-station~~ [desk](#). Highlight each of the 61 keys separately, change the color of the core hotkeys, or set a single effect across the board. You can use the included software or do it directly from the keyboard – without installing anything.

Adjustable angles

For your uncompromised convenience, the Thock Compact Wireless Brown is equipped with [magnetic](#) feet. Pick the height that best suits your needs.

Activate the God mode

Like to have [absolute](#) freedom and full control? We do too – so we added functional and feature-packed software to the Thock Compact Wireless Brown. Do it your way.

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even

create your own macros.

ENDORFY Thock Compact Wireless Brown – main features:

- Compact mechanical keyboard
- Wireless modes
- Detachable cable
- Programmable RGB backlighting
- Hot-swappable switch sockets
- Kailh Box Brown mechanical switches
- Durable PBT keycaps
- Dual-function keys
