

Product name: ENDORFY Thock 75% Wireless Red
Product code: EY5A073

If there was a superhero who has a signature keyboard as their weapon of choice, it'd be the ENDORFY Thock 75% Wireless Red. It's 100% of epic in a black-as-night chassis reinforced with aluminum.

Each key hides a Kailh [Box](#) Red mechanical switch. These ultra-fast linear switches have strengthened stems, guaranteeing a lifespan of 70 m clicks. The cherries on top (literally) are durable PBT keycaps manufactured in Double Shot technology. The overall sturdy construction makes it a perfect companion for adventures.

And if you ever feel like ~~spicing~~ [switching](#) things up a bit, the ENDORFY Thock 75% Wireless Red sports a hot-swap too — giving you the possibility to easily change switches. The keyboard supports all 3- and 5-pin models, giving you full freedom of choice.

The more [\(space\)](#), the merrier

The Thock 75% Wireless Red is smaller than your standard, full-sized keyboards. So you save desk space that you can then use for more important things — mouse maneuvers, additional notes, a drink... With greater space come greater possibilities!

The keyboard is compact, so it fits even small desks. For additional convenience, we designed it to allow you to choose the routing of the cable through special channels on the bottom. Place it closer to the grommets or the edge of the table, whatever suits you best. Cable management made easy.

Three ways

It's good to have options. And we give you three in terms of connectivity. Wired peripherals generally are ok, but nothing beats relaxing on a couch while maintaining perfect control of ~~the world~~ [your PC](#).

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

Hot Reds

All-nighter in a battle royale, a long blog post or just chatting with friends? Whatever floats your boat. Every technology hero has their own needs, but Kailh [Box](#) Red are ready for it all. The Thock 75% Wireless Red is a Swiss army knife at your fingertips.

Kailh Box Red are "linear" and always ready to pounce. They excel in situations where you need to react immediately. In comparison to the standard Kailh Red, they have an additionally reinforced stem structure. With gear like this, they're an elite commando unit ready for a mission — tireless and ultra-durable. [70 m](#) clicks are no joke.

The Thock 75% Wireless Red has also a truly PRO option for tech geeks — hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of

models available on the market.

Double Shot of PBT

You know this trope in movies when the main characters always come out of battles unscathed? It's called "plot armor". Our keyboard has a [PBT armor](#) — and a Double Shot one for that too.

We might even make a costume out of the keycaps for the next fantasy convention. What should we call our made-up superhero?

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant ~~shield~~ [polymer](#) are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) — PBT is like armor that also keeps your fingers in place.

MMA MMO champion

The Thock 75% Wireless Red is a tough cookie — with an aluminum top plate, it ain't afraid of no ~~ghosts~~ [ragequits](#). Even the scratching ones.

Its [reinforced](#) chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

Loud and proud

Some days you just want to sit down, close your eyes and blast your favorite track for the neighbors to enjoy too. With the Thock 75% Wireless Red, all it takes is a flick of your hand to take it to the next ([louder](#)) level. Quieter is also possible — but is it really what you want right now?

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

Let there be ~~light~~ ARGB

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With Thock 75% Wireless Red, you can easily customize the look of the keyboard to match the rest of your ~~desk~~ [battle station](#). Highlight each of the keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard — without installing anything.

Comfort is king

For your uncompromised convenience, the Thock 75% Wireless Red is equipped with adjustable feet. Pick the height that best suits your needs.

And if you want additional support, you can equip it with a matching Thock 75% Palm Rest — a magnetic add-on that'll keep your wrist comfortable, allowing you more time at the PC.

Activate the God mode

Like to have absolute freedom and full control? We do too — so we added functional and feature-packed software to the Thock 75% Wireless Red. Do it your way.

We fondly refer to it as “God mode”. With its help, you'll adjust [all](#) keyboard settings to your needs — whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock 75% Wireless Red – main features:

- Programmable ARGB lighting
- Detachable cable
- PBT double-shot keycaps
- Hot-swappable switch sockets
- Volume control knob with mute button

ENDORFY Thock 75% Wireless Red – technical specifications:

- Product code: EY5A073
- EAN: 5903018665283
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 326×136.2×42.5 mm
- Number of keys: 82
- Switch type: Kailh Box Red
- Switch color: red
- Hot-swap: yes
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black
- Backlight type: RGB
