

Product name: ENDORFY Thock Wireless Brown
Product code: EY5A078

If an app existed for pairing technology heroes with equipment, the ENDORFY Thock Wireless Brown would be an easy match for anyone. It's a full-sized (!) wireless (!!) keyboard that perfectly combines performance with versatility. Like magic!

The ENDORFY Thock Wireless Brown is here to stay — underneath the durable Double Shot PBT keycaps, you'll find universally loved Kailh Box Brown mechanical switches. With reinforced stems, they have an impressive lifespan of [70 m](#) clicks.

And if that's not enough, the ENDORFY Thock Wireless Brown features a hot-swap too, so you can change your switches on the fly to best suit your needs. The aluminum shield [top plate](#) makes the keyboard super sturdy, while the ARGB backlight guaranteed it to be the centerpiece of your battle station.

A ~~man~~ keyboard for all seasons

The Thock Wireless Brown will be the ~~companion~~ [keyboard](#) you always needed — versatile and reliable, it doesn't shy away from any challenge. And thanks to the handy numpad, it's a master of spreadsheets too.

The Thock Wireless Brown is a full-sized keyboard (104 keys) with a reinforced aluminum top plate — making it extremely durable. Designed to withstand any storm, it's resistant to scratches and firmly stays put on the desk even during the most intensive "work".

Three ways

If versatility and flexibility are your priority, the Thock Wireless Brown is the way to go. The early bounds of your desk no longer apply — take it where your conquest takes you (including your couch). You can work on several devices without the hassle of untangling the cables.

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

Hot-swap & Kailh [Box](#) Brown

Who would want a one-trick pony in today's economy? Not us. If you too like your keyboard to be ready for any and all tasks, you'll love the Thock Wireless Brown.

Each one of the 104 keycaps houses a hot-swappable Kailh [Box](#) Brown switch — they'll deal with any boss in no time, including the office kind. We tested that ourselves on multiple presentations and numerous product descriptions.

Kailh Box Brown are tactile switches, made for situations that require smooth and subtle movements. In comparison to the standard Kailh Red, they have an additionally reinforced stem structure. With gear like this, they're an elite commando unit ready for a mission — tireless and ultra-durable. [70 m](#) clicks are no joke.

The Thock Wireless Brown has also a truly PRO option for tech geeks — hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of models available on the market.

Double PBT armor

We made the Thock Wireless Brown to last years: using a durable PBT material and special Double Shot technology. Even after months of use, each key still looks fresh — like straight out of the box.

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) — PBT is like armor that also keeps your fingers in place.

And if needs be, you can easily take the keycaps off at any time, for example for cleaning. We've hidden a handy keycap puller on the bottom of the keyboard.

100% hardcore

The Thock Wireless Brown is 100% hardcore — pro skill, pro specs, and a literal plate armor as a cherry on top. With such a durable package, it can withstand the mightiest of hits and the saltiest of ragequits.

Its reinforced chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

For your uncompromised convenience, the Thock Wireless Brown is equipped with [magnetic](#) feet, so you can pick the height that best suits your needs. And if you want additional support, you can add a matching Thock Palm Rest — a magnetic add-on that'll keep your wrist comfortable, allowing more time at the PC.

Let's get loud

It's all up to you — what and when are you going to play, and even how loud. It only takes a single movement to adjust the volume on your PC — mute that chatterbox on the call, check the quality of your recording, or grind the whole night without waking up your roommates.

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

Let there be ~~light~~ [ARGB](#)

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With Thock Wireless Brown, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the 104 keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard — without installing anything.

Activate the God mode

Like to have [absolute](#) freedom and full control? We do too — so we added functional and feature-packed software to the Thock Wireless Brown. Do it your way.

We fondly refer to it as “God mode”. With its help, you’ll adjust all keyboard settings to your needs — whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock Wireless Brown – main features:

- Programmable RGB lighting
- Detachable cable
- PBT double-shot keycaps
- Hot-swappable switch sockets
- Volume control knob with mute button

ENDORFY Thock Wireless Brown – technical specifications:

- Product code: EY5A078
- EAN: 5903018665306
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 445.4×140×42.5 mm
- Number of keys: 104
- Switch type: Kailh Box Brown
- Switch color: brown
- Hot-swap: yes
