

Product name: ENDORFY LIV Onyx White

Product code: EY6A021

The ultra-lightweight, distinctly precise LIV Onyx White mouse is our gesture towards gamers and all other users who rely on precise mouse movements. Every element, from its perfectly balanced body to the PixArt PAW3311 sensor, is designed to ensure endurance and precision during even the most intense gaming sessions. No matter your setup preferences, just plug it in and start winning effortlessly – its symmetrical shape makes the LIV Onyx White universally comfortable.

Astonishing white

If you really want to stand out, LIV Onyx White will surely make heads turn. As a member of the series inspired by white onyx, it impresses with its elegant, bright-colored build.

Fast and precise moves

LIV Onyx White's perfectly balanced, ultra-lightweight body (only 54 g) is a modern in-house design. It gives you a striking advantage over your opponents on the virtual battlefield. Simply put, your moves will be fast, fully controlled, and unconstrained. A built-in 1.8 m cable is enough to use the mouse comfortably with a desktop PC and a laptop alike.

Keep pace!

The self-adhesive grip tape grants you a firmer hold of the mouse, which, in confluence with the PTFE feet (a second set included) provides fluid mouse movement. LIV Onyx White works great even when the clicking gets intensive.

Advanced sensor

PAW3311 is a renowned sensor from PixArt. Its maximum DPI of 12.000 and 300 IPS tracking speed allow you to make split-second decisions. Just tweak all the settings to go along with your favorite games and go boldly for the win!

Just as you like it

Thanks to dedicated software you can adjust LIV Onyx White to your preference. It allows you to create macros and change the sensitivity, or the backlight of various elements.
