

Product name: ENDORFY Cordura Speed M
Product code: EY6B001

The ENDORFY Cordura Speed M guarantees precise ~~maneuvers~~ [movements](#) during work and play. It's a surface that's as smooth as a newly opened toboggan run – you can glide along it at Olympic speeds without worrying that you'll have to replace the skates just before the final. CORDURA® fabric with dense stitching will keep your mousepad looking fresh even after hours upon hours of use.

The surface of the ENDORFY Cordura Speed M is also [water-repellent](#). If you spill something on it in excitement, simply wipe it off and move on.

As durable as a ~~soldier~~ [mousepad](#)

If you ~~play~~ [work](#) with your mouse a lot, you need an indestructible mousepad. We've approached this concept literally – the Cordura Speed M will survive every skirmish and look new even after hours of intense use. No wonder. It's backed by military-grade solutions – a fabric for special assignments called CORDURA®.

CORDURA® is a protective fabric that's not afraid of fire, water, extreme temperatures, or critical situations. It effectively protects soldiers, motorcyclists, and survival geeks, among others.

Its dense structure makes it virtually [unbreakable](#). It can glide over asphalt, sandpaper, and knives without sustaining any major damage. That's why it's commonly used for tents, protective clothing, tactical footwear, and holsters... And our mousepad.

A speed-type surface

With the Cordura Speed M, you'll hit your target with ease.

Its smooth surface reduces annoying friction, giving you complete power over your mouse. It's as if it had a mind of its own (just in case, let's not give it any ideas about taking over the world).

~~Always-in-place~~ [under the mouse](#)

The Cordura Speed M is a mousepad that grips your desk firmly. We have designed it to stay in place even when you move the mouse dynamically.

A high-quality rubber underside prevents the mousepad from slipping. It's all about making your movements as precise as possible – because we know that in work and play there's no room for ~~fails~~ [random actions](#).

ENDORFY Cordura Speed M – main features:

- Exceptionally durable CORDURA® fabric
- Splash-proof surface
- Non-slip rubber base
- Speed-type surface
- Easily washable
- Size: 360×300×3 mm

ENDORFY Cordura Speed M – technical specifications:

- Product code: EY6B001
- EAN: 5903018664668
- Product type: mousepad
- Color: black
- Dimensions: 360×300×3 mm (L×W×H)
- Material (top):
 - Type: CORDURA®
 - Properties: waterproof
 - Color: black
- Material (bottom):
 - Type: rubber
 - Properties: non-slip
 - Color: black
- Edges:
 - Stitching: yes
 - Rounded: yes
 - Color: black
- Mouse/sensor compatibility:
 - Laser sensor: yes
 - Optical sensor: yes
- Warranty: 24 months

ENDORFY Cordura Speed M – logistics data:

- Retail box dimensions: 60×60×310 mm
- Weight (net): 0.195 kg
- Weight (gross): 0.260 kg
- Master carton dimensions: 350×285×375 mm
- Master carton weight (gross): 6.68kg
- Product quantity in master carton: 20 pcs

Set includes:

- 1× ENDORFY Cordura Speed M mousepad
- 1× User and safety manual
