

Product name: ENDORFY Crystal Blue L
Product code: EY6B013

Water-resistant fabric with a crystal-like graphic pattern, detailed hem with a print, and a non-slip underside – everything you need for a high-quality mousepad designed for precise and dynamic movements. ENDORFY Crystal Blue L pad brings a touch of style to your desk.

Ocean blue under your mouse

If you're looking to add some flair to your workspace, the ENDORFY Crystal series is just what you need. The blue variant, ENDORFY Crystal Blue L, offers a fresh look. The pattern similar to stained glass, printed on fabric that works seamlessly with either optical or laser sensors, resembles a crystal and elevates the aesthetics of your desk. Its large size of 450×400 mm gives you plenty of space for wide mouse movements.

Extra hem

We've also gone the extra mile with the edges of ENDORFY Crystal Blue L. The colored hem not only complements the printed design but also ensures durability, preventing fraying as you might see with basic pads that lack reinforced edges.

Always steady on the desk

Even during fast-paced gaming or work sessions, ENDORFY Crystal Blue L stays firmly in place. The high-quality black rubber layer on the underside keeps the pad stable, ensuring your mouse movements are always precise.

Damp-proof

Sweaty hands on a hot day? Some condensation on your mug? No problem – ENDORFY Crystal Blue L is moisture-resistant, so you don't have to worry about its durability.

ENDORFY Crystal Blue L – main features:

- Printed pattern surface
- Printed hem
