

Product name: ENDORFY Scrim BK F
Product code: EY8A004

The ENDORFY Scrim BK F looks like a supermodel from a ~~magazine~~ [render](#) and is so comfortable that we wouldn't mind using it outside the home office. That's thanks to the wide seat and tall, profiled backrest, on which we mounted two memory foam cushions to stabilize the cervical and lumbar regions of your spine.

And the cherry on top — you can adjust [every](#) element of the Scrim BK F. By "every" we mean the angle of the backrest (from 90° to 150°), the seat (up and down), and the armrests (up-down, parallel right-left, front-back, and around its axis). The ENDORFY Scrim BK F is equipped with a top-of-the-line gas-lift with a lifting capacity of up to 120 kg, so nothing will crunch under your seat.

Let's [get comfy](#)!

The Scrim BK F is our safe (and [comfy](#)) place for working, playing, and creating. It's simply because we feel cozy and relaxed in it... And it hugs our backs just right in all strategic spots.

That's thanks to the wide seat and high backrest made of cold-pressed foam that masterfully keeps its form even after months of intensive use. You also get two memory foam cushions, which stabilize the spine in strategic places — the cervical and lumbar sections. We adjusted them for people between 1.70 and 1.95 m tall.

You + the Scrim BK F = <3

When you spend half your life at the PC, you know all the nasty things a computer chair can do to your spine. That's why we made sure that the Scrim BK F [fine-tunes](#) to you at all strategic points.

Simply adjust every element of the chair and you're good to go [sit](#). You can change the height of the seat (450-500 mm), set the armrests (up-down, parallel right-left, front-back, and around its axis), and the angle of the backrest (from 90° to 150°).

The Scrim BK F also has a multilock mechanism. In practice, this means that you can choose one of five seat angles – or unlock it completely. Multilock harmonizes with a wide range of backrest adjustments, so you can choose the most comfortable position. The whole thing is held up by the highest – fourth – class of a gas-lift that holds up to 120 kg (or 150 kg, if you [don't](#) move).

Just ~~breathe~~ [breathable materials](#)

The Scrim BK F will last for years. We finished it with a breathable fabric that ensures air circulation throughout the seat and backrest. You can ~~work~~ [play](#) for hours without the risk of getting as hot as a PC after a full night of gaming on the highest settings.

In the summertime. Without air conditioning.

ENDORFY Scrim BK F – main features:

- Eye-catching design
- Comfortable construction

- high-quality breathable fabric
- Multi-level regulation
- 4D armrests
- Multilock mechanism

ENDORFY Scrim BK F – technical specifications:

- Product code: EY8A004
- EAN: 5903018666570
- Product type: gaming chair
- Color: black
- Dimensions (H×W×L): 128×74×69 cm
- Material: fabric
- Backrest:
 - Height: 850 mm
