

Product name: ENDORFY Scrim Onyx White
Product code: EY8A007

The ENDORFY Scrim Onyx White is the five-star bed among gaming chairs. It has everything you need to live [sit](#) – a tall backrest, a comfortable seat, and memory foam cushions that wrap around your body like a professional masseuse. The only difference is that you don't have to book an appointment.

You can also [adjust](#) the chair to suit your needs. Change angle of the backrest (from 90° to 150°), adjust the seat (up-down), and the armrests (up-down, parallel right-left, front-back, and around its axis). The ENDORFY Scrim Onyx White is equipped with a top-of-the-line gas-lift with a lifting capacity of up to 120 kg, so you can fidget as much as you want... Although we usually fall asleep in it.

White as onyx

Apparently, bright color = extra points for appearance. And there's some truth to that, as the Scrim Onyx White attracts admiring glances every time someone stops by for a quick chat. Maybe one day we'll add something to count all the loud "Wow!".

This bright accent in your ~~home office~~ [entertainment center](#) was designed by Mother Nature herself. Its color refers to the white variety of onyx – a precious mineral that connoisseurs associate with high strength and an unique look. To put it simply, this handsome little fella charmed us at first sight.

Chair Care on wheels

If there were special paths in the city, we would ride the Scrim Onyx White to work. It's just so comfortable that we don't want to get up even after a few (or more) hours of sitting. Simply put, it's a real ~~chair~~ [care](#) on wheels.

That's thanks to the wide seat and high back made of cold-pressed foam that masterfully keeps its form even after months of intensive use. You also get two memory foam cushions, which stabilize the spine in strategic places – the cervical and lumbar sections. We adjusted them for people between 1.70 and 1.95 meters tall.

You + the Scrim Onyx White = <3

When you spend half your life at the PC, you know all the nasty things a computer chair can do to your spine. That's why we've made sure that the Scrim Onyx White [fine-tunes](#) to you at every strategic point.

Just adjust each element of the chair and you're good to go ~~go~~ [sit](#). You can change the height of the seat (450-500 mm), set the armrests (up-down, parallel right-left, front-back, and around its axis), and the angle of the backrest (from 90° to 150°).

The Scrim Onyx White also has a multilock mechanism. In practice, this means that you can choose one of five seat angles – or unlock it completely. Multilock harmonizes with a wide range of backrest adjustments, so you can choose the most comfortable position. The whole thing is held up by the highest – fourth – class of a gas-lift that holds up to 120 kg (or 150 kg, if you [don't](#) move).

Make yourself at home chair!

The Scrim Onyx White is your chair for years to come. We finished it with two types of durable material – PU leather on the sides and breathable fabric that ensures air circulation on the seat and backrest. With this combination, you can make yourself [comfortable](#) for long hours of work (and play). Just don't fall asleep!

ENDORFY Scrim Onyx White – main features:

- Eye-catching design
- Comfortable construction
- High quality material
- Multi-level regulation
- 4D armrests
- Multilock mechanism

ENDORFY Scrim Onyx White – technical specifications:

- Product code: EY8A007
- EAN: 5903018666631
- Product type: gaming chair
- Color: white
- Dimensions (H×W×L): 128×74×69 cm
- Material: PU leather, fabric
- Backrest:
 - Height: 850 mm
 - Thickness: 60 mm
 - Inner width: 320 mm
 - Outer width: 560 mm
 - Minimum incline angle: 90°
 - Maximum incline angle: 150°
- Seat:
 - Minimum height (from ground level): 450 mm
 - Maximum height (from ground level): 500 mm
 - Inner width: 400 mm
 - Outer width: 540 mm
