

Product name: ENDORFY Atlas GS Single

Product code: EY8F008

ENDORFY Atlas GS Single is a gas spring monitor arm designed to keep your screen securely in a precisely adjusted position. The durable construction supports monitors up to 35 inches and 10 kg. A gas spring tested for 20,000 cycles ensures smooth movement and long-term reliability, while the thoughtful design helps keep your workspace organized.

Stable construction with gas spring

The durable construction combined with a high-quality gas spring provides reliable support even for most monitors available on the market.

The mechanism has been tested for thousands upon thousands of cycles, confirming long-term durability. Resistance adjustment matched to the monitor weight allows smooth positioning without the need to apply force.

Cable management channels

The arm features enlarged upper cable routing channel that can accommodate multiple power, signal, and accessory cables. This helps keep your desk tidy and reduces cable strain when adjusting the monitor. The cover can be easily removed and reattached thanks to a tool-free pin-based system.

Full monitor adjustment

The arm offers a wide range of adjustments and a maximum reach of 52 cm. Pivot ($\pm 180^\circ$) allows switching between landscape and portrait modes, while swivel ($\pm 90^\circ$) enables side rotation. The tilt range from $+25^\circ$ to -35° ensures comfortable viewing angles.

360° arm rotation

The entire arm rotates 360°, allowing flexible positioning in any direction. Adjustable tension screws in both segments improve control and precision, helping you achieve an ergonomic setup tailored to your needs.

VESA mounting system

The detachable VESA plate compatible with 75×75 mm and 100×100 mm standards enables quick and convenient installation. You can attach it to the monitor first and then slide it onto the arm without holding the display in place.

Included spacers and longer screws ensure compatibility with monitors featuring recessed VESA mounts or curved panels.

Wide display compatibility

The arm supports monitors up to 35" (flat) or 32" (curved) and 10 kg, covering most typical models available on the market.

Easy desk installation

The Atlas GS Single can be mounted using a C-clamp or a grommet system, that uses a hole in the desk, for desks up to 65 mm thick. The improved C-clamp allows tightening from the top, without reaching under the desk, while a rubber pad protects the surface from damage.

ENDORFY Atlas GS Single – main features:

- Durable construction
- Gas spring tested for 20,000 cycles
- Enlarged upper cable routing channels
- Detachable VESA plate for easy installation
- Supports most monitors available on the market
- Compatible with curved displays and models with deeper VESA mounting
- C-clamp and grommet mounting options
- Pivot $\pm 180^\circ$, swivel $\pm 90^\circ$, tilt $+25^\circ / -35^\circ$
- 360° arm rotation

ENDORFY Atlas GS Single – technical specifications:

- Product code: EY8F008
- EAN: 5903018668826
- Product type: monitor arm
- Color: black
- Material: steel, plastic, aluminum
- Spring type: gas
- Weight: 2.87 kg
- Supported desk thickness (C-clamp): 15–65 mm
- Supported desk thickness (grommet): 10–43 mm
- VESA standard:
 - 75×75 mm
 - 100×100 mm
- Maximum monitor size: 35" (flat) / 32" (curved)
- Maximum monitor weight: 10 kg
- Adjustment range:
 - Swivel: -90° to $+90^\circ$
 - Tilt: -35° to $+25^\circ$
 - Pivot: -180° to $+180^\circ$
- Warranty: 24 months

ENDORFY Atlas GS Single – logistics data:

- Retail box dimensions: 390×250×115 mm
- Weight (net): 2.10 kg
- Weight (gross): 2.85 kg
- Master carton dimensions: 520×408×374 mm
- Master carton weight (gross): 18.0 kg
- Product quantity in master carton: 6 pcs

Set includes:

- 1× ENDORFY Atlas GS Single monitor arm
- 1× C-clamp mount
- 1× Grommet mount
- 1× VESA mounting plate
- 1× Removable cable channel
- 1× Mounting screws set
- 1× Installation tools set
- 1× User and safety manual
