

**Product name: ENDORFY Solum**  
**Product code: EY1B001**

The ENDORFY Solum microphone gives you the clear, nuanced sound you always dreamed of. Thanks to its [cardioid](#) characteristic, the Solum prioritizes sounds on the front of the capsule. The handy arm (90 cm reach) frees up space for notes and a cup of coffee, making it a lot easier to survive lengthy online meetings.

You also get a pop-filter — an invaluable aid in the fight against explosive consonants, such as “P” and “P”. Simply clamp it onto the arm and you’re good to go, no need to worry about blowing out your audience’s ears.

And to take your audio to an even higher level, we included a [sturdy](#) anti-shock mount. It’s designed to isolate the microphone from external vibrations and jolts carried through the desk.

### **Devil is in the details**

When you have a lot to say, you need equipment to catch and carry your [every](#) word. And that’s exactly what the Solum is. It provides a nuanced sound without the frustrating background noise — as if you’re sitting next to your colleagues in a well-soundproofed room.

That’s thanks to the [cardioid](#) characteristic — it picks up sound only in the front of the microphone. Additional clarity points are added through the included pop filter, an external panel of mesh that blocks the “explosive” consonants. We also added an anti-shock mount that helps isolate the microphone from the vibrations carried through the desk whenever you slap it in anger.

### **Hand in hand [with an arm](#)**

We know how precious every centimeter of desk space can be. When you’re trying to take over the world, there’s no room for mistakes. So we included a [sturdy](#) adjustable arm — you can mount the microphone on it and free space for other important things.

The Solum’s arm had a long reach (90 cm) and three joints for easy adjustability, allowing you to position your mic where it suits you best. Oh, and we hid the cable inside of the arm already, to help you keep your space tidy.

### **Plug & [play talk](#)**

Setting up the Solum is not rocket science. The microphone comes with everything you need already included — mount it, plug it into your computer and you’re good to [go talk](#). Enjoy the new, superior quality of your audio!

Connect the microphone within seconds with the included [USB-A](#) cable — hidden inside of the arm for your convenience. The Solum is compatible with the most popular operating systems: Windows, macOS, and Linux.

### **ENDORFY Solum – main features:**

- High-end shock mount
- Adjustable pivots with USB cable threaded into frame
- Adjustable and rotatable desk mounting clamp
- USB Plug&Play

- Crystal clear sound

**ENDORFY Solum – technical specifications:**

- Product code: EY1B001
- EAN: 5903018665122
- Product type: microphone
- Color: black
- Dimensions: 147.5×42.7×47 mm
- Microphone type: condenser
- Directivity: cardioid
- Bit depth: 16 bit
- Sampling rate: 48 kHz
- Frequency range: 18–21 000 Hz
- Pop filter: external
- Mount type: adjustable arm
  - Desktop mount: C-clamp, max. 46 mm desktop thickness
  - Horizontal reach: 74 cm
  - Vertical reach: 74 cm
- Shock mount: yes
- Mute button: no
- Connectivity:
  - USB-A, cable length: 2.9 m
- Compatibility:
  - Windows
  - macOS
  - Linux
- Warranty: 24 months

**ENDORFY Solum – logistics data:**

- Retail box dimensions: 404×115×282 mm
- Weight (net): 1245 g
- Weight (gross): 2205 g
- Master carton dimensions: 580×415×250 mm
- Master carton weight (gross): 9.80 kg
- Product quantity in master carton: 4 pcs

**Set includes:**

- 1× Solum microphone
- 1× Streaming Boom Arm
- 1× Shock mount
