

**Product name: ENDORFY Signum 300 ARGB**  
**Product code: EY2A006**

ENDORFY Signum 300 ARGB is a compact chassis with a glass window [side](#) showcasing the internals in a rad way. It will fit all the components you need and illuminate them with a rainbow glow – we’re throwing in as many as four of our Stratus 120 PWM ARGB fans (you can mount up to eight in total!). Admiring glances of your pals are available separately.

The spacious interior of ENDORFY Signum 300 ARGB can accommodate two 3.5-inch hard drives with another two 2.5-inch ones (or four small drives instead). You won’t have trouble installing a tower-type cooler and or a long (up to 325 mm) graphics card – there might be crowding at an official launch party for the latest game half the world has been waiting for, but not inside ENDORFY Signum 300 ARGB. Here, [everything](#) has its place.

### **Time for a little airing out**

Nobody likes it when a blue screen suddenly pops – unless they’re your roommate and you’re supposed to clean the apartment. That’s why we’ve designed Signum 300 ARGB to prevent your components from overheating.

We made sure that the case can accommodate as many fans as possible, providing proper air circulation. You can install as many as eight fans in Signum 300 – including the four Stratus 120 PWM ARGB fans that we are throwing in.

We have also included a set of removable dust filters with magnets keeping them in place. You can easily clean vacuum them, clean them with a cloth, or wash them with water. Protecting your computer against dirt and debris is no longer a problem, and Signum 300 ARGB is both airy and dust resistant.

### **Stratus 120 PWM ARGB fans**

Signum 300 ARGB chassis can accommodate eight fans. For a start we’ve thrown in four of our Stratus 120 PWM ARGB, which we’ve developed in cooperation with Synergy Cooling.

These are quiet, efficient, and durable fans with ARGB lighting, equipped with long-life fluid dynamic bearings. You can control them with a PWM signal, which means that extremely low speeds are achievable for a pleasant silence. You will hear nothing but our own mouse clicks and the rustle of curtains moving in your home office.

### **Tempered glass side**

Signum 300 ARGB has nothing to hide. We’ve made one side from tempered glass – it’s durable and gives you a good view on your components. It also looks out of this world, especially with ARGB lighting inside.

### **Can you wrap your head [chassis](#) around it? O.O**

Behind every virtual race won or every video edited, there are top-tier components that made it possible.

Lots of top components.

That's why we've made room for more. You no longer have to choose between a better graphics card and a more extensive cooling system – you can fit both. Signum 300 ARGB is compatible with liquid cooling systems with radiators up to 240 mm (top) and 240/360 mm (front panel). It fits tower-type air coolers up to 161 mm tall and graphics cards up to 325 mm long.

There are enough mounting spots for two 3.5-inch hard drives and two smaller 2.5-inch drives – or up to four small ones in total. All the mounting hardware is included – just open the box and do your thing.

### **In the best ARGB light**

Cases without lighting are okay – just like plain armor with good stats. Everything works and keeps the internals together, but the looks won't make your jaw drop. If you like to stand out from the crowd, you might choose to go with ARGB lighting.

Just be warned: your friends will burst with envy.

With Signum 300 ARGB, you can match the looks of your chassis to the rest of your battlestation. Four Stratus 120 PWM ARGB fans – already thrown into the deal – can display countless custom configurations of lighting. With our built-in ARGB controller you can choose effects ranging from a pulsating rainbow to an atmospheric glow of solid color. All of that is compatible with industry standard methods of software control and with other ENDORFY ARGB products, so you can illuminate your Signum easily.

### **ENDORFY Signum 300 ARGB – main features:**

- Mesh front panel
- Tempered glass side
- ARGB lighting
- 8 fan mounts
- Removable dust filters
- Wide cooling compatibility
- Convenient cable management
- Elastic HDD/SSD mounts

### **ENDORFY Signum 300 ARGB – technical specifications:**

- Product code: EY2A006
- EAN: 5903018666259
- Product type: PC case
- Color: black
- Dimensions (H×W×L): 413×447×216 mm
- Motherboard form factor: ATX, micro ATX, ITX
- Graphics card clearance (GPU): 325 mm (up to 350 mm)
- CPU cooler clearance: 161 mm
- Power supply clearance: ATX up to 180 mm
- Expansion slots: 7
- Number of bays:
  - internal:
    - 2× 2.5"/3.5"
    - 2× 2.5"
- Cooling system:

- Maximum number of fans: 8
- Number of fans included: 4
  - Rear: 1× Stratus 120 PWM fan (200–1400 rpm)
  - Front: 3× Stratus 120 PWM fan (200–1400 rpm)

**Radiator compatibility:**

- Front: 1× 120, 240, 360 mm
- Top: 1× 120, 240 mm
- Rear: 1× 120 mm
- Dust filters:
  - Front: magnetic
  - Top: magnetic
  - Bottom: magnetic
- Front I/O:
  - 2× USB-A,
  - 1× Headphones (HD Audio)
  - 1× Microphone (HD Audio)
  - 1× POWER button
  - 1× RESET/LED button
- ARGB Controller: Yes
- Warranty: 36 months

**ENDORFY Signum 300 ARGB – logistics data:**

- Retail box dimensions: 480×265×472 mm
- Weight (net): 5.150 kg
- Weight (gross): 6 kg

**Set includes:**

- 1× ENDORFY Signum 300 ARGB case
- 4× Stratus 120 PWM ARGB fan
- 1× Installation accessories
- 1× User and safety manual
