

Product name: ENDORFY Stratus 140 PWM
Product code: EY4A011

The ENDORFY Stratus 140 PWM is like a cold shower after a hard day's work, a glass of iced water on a hot night and air conditioning in your car when you're stuck in summer traffic. All in one, of course – we designed this [silent](#) fan to keep up with you in every scenario.

We created this bad boy together with Synergy Cooling. As a result, the ENDORFY Stratus 140 PWM is a decently-sized (14 cm) fan with an optional semi-passive mode, which ensures high performance even in the toughest conditions. We're serious – it works well even in ~~houses~~ [cases](#) with dense dust filters.

Simply put, nothing is impossible for this fan.

Even your neighbor won't hear it

The Stratus 140 PWM is so [quiet](#) that even your neighbor won't hear it (and we all know they can hear everything). The sound of the fan remains pleasant to the ear, even when you're squeezing the last juices out of your PC – for example, when rendering 3D scenes or running black magic quantum calculations.

The fan moves on a robust FDB bearing – the main reason why the Stratus 120 PWM works quietly and smoothly even when you squeeze the last juices out of your PC. Additional optimization of the rotor geometry allows efficient operation even in demanding conditions (for example, in cases with dense dust filters).

Red light, green light!

Do you remember the game of red light, green light? The Stratus 140 PWM works on similar principles – the only difference is that it stops at a low level of the control signal (the so-called optional semi-passive mode). Something tells us you'll really like that... Especially if you're a fan ([wink wink](#)) of silence.

One moment ([for assembly](#)), please

You'll mount the Stratus 140 PWM in mere minutes – even if it's your first time. We've prepared ~~guarantees~~ [instructions](#) that'll guide you step by step through the entire process. You don't even have to buy any extra mounting parts. Simply speaking, we took care of everything.

[5-year](#) warranty

The Stratus 140 PWM proudly wears the ENDORFY logo, and this is enough to make us sure of its quality. That's why we give you a long 5-year warranty (although you probably won't use it anyway).

ENDORFY Stratus 140 PWM – main features:

- Optional automatic fan stop
- Extreme speed range with PWM control
- Long-life FDB bearing
- High performance against flow restrictions

ENDORFY Stratus 140 PWM – technical specifications:

- Product code: EY4A011

- EAN: 5903018666044
- Product type: PC fan
- Fan dimensions: 140×140×25 mm
- Fan bearing: FDB
- Fan speed: 200 (±100) – 1200 (±10%) RPM
- Control (speed): PWM
- Connector (fan): 4-pin (male and female)
- Voltage (fan): 12 V
- Current (fan, peak): 0.25 A
- MTBF: 80 000 h
- Warranty: 60 months

ENDORFY Stratus 140 PWM – logistics data:

- Retail box dimensions: 165×28×150 mm
- Weight (net): 160 g
- Weight (gross): 198 g
- Master carton dimensions: 670×345×330 mm
- Master carton weight (gross): 14.5 kg
- Product quantity in master carton: 80 pcs

Set includes:

- Stratus 140 PWM fan
- 4× screw
- Safety instructions
