

Product name: ENDORFY Zephyr 120
Product code: EY4A017

The ENDORFY Zephyr 120 cools like a glass (or two) of ice-cold water on a hot summer's day. It measures just 120 mm – small enough to fit into a standard PC case and keep the temperatures in check.

The fan moves smoothly on a durable FDB bearing. It also fits easily into most PC cases, and (thanks to the 600 mm long cable) doesn't require additional gymnastics during assembly. The package includes a manual that will get you up and running in no time – even if it's the first assembly of your life. And the next ones will be even quicker!

No technical break

The Zephyr 120 is a [quiet](#) piece of hardware that lets you fully focus on what matters most. You can have fun, create and talk with besties for hours on end, without worrying about your PC getting a fever. We just know that there's no room in life for technical breaks.

Our fan runs on a durable FDB bearing (80.000 h MTBF) and it stays quiet and smooth even as you tweak the settings of your favorite game. Say goodbye to lags and the monotonous buzz coming from the PC case.

120 mm of cooling

The Zephyr 120 is 120 mm of cooling for your boiling PC. This size fits most cases like custom-made armor for a fantasy convention... The only difference is that our fan provides much better cooling.

Best of all, you can mount in literally in a jiffy – without any additional accessories. Included with the fan are 4 mounting screws. All you have to do is screw the Zephyr 120 to your PC case and you're done. You're ready to [have fun](#).

[3-year](#) warranty

We believe in the quality that comes with the ENDORFY logo. That's why the Zephyr 120 is covered by a long [3-year](#) warranty (but you probably won't use it anyway).

ENDORFY Zephyr 120 – main features:

- Versatile and cost effective
- Long-life FDB bearing
- Stealthy design

ENDORFY Zephyr 120 – technical specifications:

- Product code: EY4A017
- EAN: 5903018667225
- Product type: PC fan
- Fan dimensions: 120×120×25 mm
- Fan bearing: FDB
- Fan speed: 1100 (±10%) RPM
- Control (speed): DC
- Connector (fan): 3-pin (female)

- Voltage (fan): 12 V
- Current (fan, peak): 0.22 A
- MTBF: 80 000 h
- Warranty: 36 months

ENDORFY Zephyr 120 – logistics data:

- Retail box dimensions: 125×28×140 mm
- Weight (net): 121 g
- Weight (gross): 149 g
- Master carton dimensions: 575×305×275 mm
- Master carton weight (gross): 12.8 kg
- Product quantity in master carton: 80 pcs

Set includes:

- Zephyr 120 fan
- 4× screw
- Safety instructions
