

Product name: ENDORFY Thock TKL Blue
Product code: EY5A001

The ENDORFY Thock TKL Blue is small, so an esports tournament is literally its natural habitat. Thanks to the keyboard's size, it frees up a lot of space for a mouse and a drink of your choosing.

We reinforced its ~~shield~~ [chassis](#) with an aluminum plate and fitted it with 87 PBT keycaps. Extra durable thanks to the Double Shot technology, they await your commands battle-ready. Underneath each one lies a hidden Kailh Blue mechanical switch — the best choice if you want to be certain the key has been activated.

Small, ~~smaller~~ [TKL](#), smallest

If you live a competitive life revolving around esports tournaments, you know that a gamer's best friend must fit (and survive) in a backpack. That's why the Thock TKL Blue is both small and sturdy.

This piece of machinery leaves more room for a mouse even on small desks. Imagine the K/D you'll score with that kind of freedom of movement. To make all of that happen, we ditched the numpad entirely. The Thock TKL Blue is here to win, no dilly-dallying.

"Click" to know

Responsive switches are the key (pun intended) to precise in-game actions. That's why we opted for Kailh [Blue](#) — so quick to act that you might think they're reading your mind (that we're still working on).

Kailh Blue are clicky switches, known for their [distinctive](#) activation sound. It's clear when the keypress actually happens, and they work well in scenarios requiring fast and flawless movements. They're also durable, with an estimated lifespan of as many as 50 m clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

Love at first ~~sight~~ [click](#)

We fell in love with the Thock TKL Blue at first ~~sight~~ [click](#).

Home office or home alone, we knew right away that we'll be steadfast companions for better or worse. A true dream team for years to come because each key will still look brand-new even after countless virtual battles.

It's all thanks to the heavy-duty [PBT keycaps](#) and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) — PBT is like armor that also keeps your fingers in place.

Tough as nails

Esports tournament or a friendly LAN party — that's where the Thock TKL Blue shines the brightest. It's tough as nails and doesn't require first-class tickets to

travel the world with you. No earthly task is enough to break this puppy's high spirits.

Its chassis reinforced with an aluminum top is rigid and damage-resistant — ready to withstand the toughest conditions. It firmly holds the desk, so it doesn't move around even when you're gaming or working for hours on end. It looks the part too — engraved patterns on the bottom and the [ARGB](#) backlight give it a fierce edge.

My name is RGB. [ARGB](#)

Let's face it — keyboards without a backlight are fine. But if you like the darkness of the night, want to stand out from the crowd, or impress your followers, then [ARGB](#) is a must-have.

Customize the look of the Thock TKL Blue to complete the battle station of your dreams. Highlight each of the 87 keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard — without installing anything.

Perhaps some will say it's unnecessary and a gizmo (you can always disable it entirely)... but if you like to play with the look of your setup every now and then, the ARGB backlighting is the thing for you.

Adjustable angles

To make clicking even more comfortable, we equipped the Thock TKL Blue with two-step [adjustable](#) feet. With them, you can place the keyboard at an angle that best suits your needs.

Cable management made easier

The Thock TKL Blue keyboard chassis allows you to route the cable in three different ways, helping you make better use of your desk space.

It's possible thanks to a [detachable](#) cable and three custom-made channels on the bottom of the keyboard, allowing you to arrange the cable conveniently — for example, closer to the grommets or at the edge of the table.

Everything [Keyboard](#) under control

Do you like to have ~~everything~~ [keyboard](#) under control? We thought of that — and equipped the Thock TKL Blue with functional and feature-packed software.

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs — whether it's changing the ARGB backlight and its color, customizing the effects or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock TKL Blue – main features:

- TKL mechanical keyboard
- Modern design

- Configurable RGB backlighting
- High durability
- Kailh Blue mechanical switches
- Durable PBT keycaps
- Detachable cable
- Two-step feet
- N-Key Rollover function
- Functional software

ENDORFY Thock TKL Blue – technical specifications:

- Product code: EY5A001
- EAN: 5903018665344
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 361.5×140×42.5 mm
- Number of keys: 87
- Switch type: Kailh Blue RGB
- Switch color: blue
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black
- Backlight type: RGB
- Connectivity:
 - Gold-plated USB, cable length: 1.8 m
- Keyboard specific features:
 - N-Key Rollover: full
 - Anti-ghosting: full
 - Programmable macros: yes
- Compatibility:
 - Windows
 - macOS
 - Linux
- Software: yes
- Software compatibility: Windows 10
- Warranty: 24 months

ENDORFY Thock TKL Blue – logistics data:

- Retail box dimensions: 400×189×49 mm
- Weight (net): 0.88 kg
- Weight (gross): 1.21 kg
- Master carton dimensions: 420×270×400 mm
- Master carton weight (gross): 12.6 kg
- Product quantity in master carton: 10 pcs

Set includes:

- 1× ENDORFY Thock TKL Blue keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool

- 1× User and safety manual
