

Product name: ENDORFY Omnis Blue
Product code: EY5A028

The ENDORFY Omnis Blue is as reliable as your best buddies (and maybe even more). It'll work well for working, gaming, or just chatting with friends. Not necessarily in that order.

We've reinforced its [sturdy](#) chassis with an aluminum top that makes it truly "Unbowed, unbent, unbroken". It's as resistant to scratches as a grandmother to your "No, thank you" around dinnertime. The keyboard comes equipped with a magnetic wrist rest, a volume wheel, durable PBT keycaps, and an ARGB backlight. At its core lies a full set of Kailh Blue mechanical switches – in all their clicky glory, bringing unmatched certainty to the execution of your command.

Mechanical keyboard with numpad

The Omnis Blue is a mechanical keyboard with a numeric section. The extra keys come in handy when you want to write your own macros or fancy keyboard shortcuts. And our office experience also proved that the numpad becomes the real MVP when the boss suddenly asks for "a couple of quick calculations".

We designed the Omnis Blue keyboard to flawlessly support you in every task – without warping or getting scratched. Additionally, it stays firmly put on the desk and doesn't slide around even during intensive "work".

And it looks good too – the distinctive shape and ARGB backlight give it a fierce edge.

I want it, I [get click](#) it

Who has time for delays in this economy? When you spend a lot of time at your PC, you require a keyboard that reacts as quickly as you. For this reason, we chose the Kailh Blue switches – which simply don't hesitate. Just ~~ask~~ [click](#) and you shall receive.

Kailh Blue are clicky switches, known for their distinctive activation sound – it's clear when the keypress actually happens. They work well in scenarios requiring fast and flawless movements, too. They're also durable, with an estimated lifespan of as many as 50 m clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

PBT beauty

PBT means no worries – for the rest of your days. You can work, create and play without the fear of critical damage happening in real life. Because first and foremost it's supposed to be a [reliable](#) tool, not a constant headache.

It's all thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) – PBT is like armor that also keeps your fingers in place.

[Solid](#) support for your wrists

Solid support for your wrists is the bass player in a rock band – you [instantly](#) notice when it's gone.

It's the same with keyboards. While you may overlook their ergonomics at first, after a few hours your wrists start crying out for help. That's why with the Omnis Blue we give you the comfort you need – in the form of a wrist rest.

Equipped with magnets, it's easy to install and holds the keyboard tight. If you prefer, you can even place it at a distance from your Omnis – thanks to the wide rubber feet, it remains stable in any position.

Volume control at ~~hand~~ [fingertips](#)

The Omnis Blue is a keyboard where you have the option to adjust the volume at your fingertips. Literally – a [subtle](#) flick of the hand is all it takes to mute a chatty guildmate or someone's occasional background ruckus.

It's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

My name is RGB. ARGB

Let's face it – keyboards without a backlight are fine. But if you like the darkness of the night, want to stand out from the crowd, or impress your ~~friends~~ [followers](#), then ARGB is a must-have.

Customize the look of the Omnis Blue to complete the battle station of your dreams. Highlight each of the 104 keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard – without installing anything.

Perhaps some will say it's unnecessary and a gizmo (you can always disable it entirely)... but if you like to play with the look of your setup every now and then, the ARGB backlighting is the thing for you.

Adjustable angles

To make clicking even more comfortable, we equipped the Omnis Blue with two-step adjustable feet. With them, you can place the keyboard at an angle that best suits your needs.

Cable management made easier

The Omnis Blue keyboard chassis allows you to route the cable in three different ways, helping you make better use of your desk space.

It's possible thanks to a detachable cable and three custom-made channels on the bottom of the keyboard, allowing you to arrange the cable conveniently – for example, closer to the grommets or at the edge of the table.

Everything under control

Do you like to have everything under control? We thought of that – and equipped the Omnis Blue with functional and feature-packed software.

We fondly refer to it as “God mode”. With its help, you’ll adjust all keyboard settings to your needs – whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Omnis Blue – main features:

- Full-size mechanical keyboard with a numeric block
- Modern design
- Configurable RGB backlighting
- High durability
- Palm rest with magnetic fastening
- Metal volume wheel
- Kailh Blue mechanical switches
- Durable PBT keycaps
- Detachable cable
- Two-step feet
- N-Key Rollover function
- Functional software

ENDORFY Omnis Blue – technical specifications:

- Product code: EY5A028
- EAN: 5903018664798
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Dimensions (L×W×H): 453×210×45 mm
- Number of keys: 104
- Switch type: Kailh Blue RGB
- Switch color: blue
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black
- Backlight type: RGB
- Connectivity:
 - Gold-plated USB, cable length: 1.8 m
- Keyboard specific features:
 - N-Key Rollover: full
 - Anti-ghosting: full
 - Programmable macros: yes
 - Palm rest: yes
- Compatibility:
 - Windows
 - macOS
 - Linux
- Software: yes
- Software compatibility: Windows 10
- Warranty: 24 months

ENDORFY Omnis Blue – logistics data:

- Retail box dimensions: 500×190×70 mm
- Weight (net): 1.15 kg
- Weight (gross): 1.62 kg
- Master carton dimensions: 515×375×400 mm
- Master carton weight (gross): kg
- Product quantity in master carton: 10 pcs

Set includes:

- 1× Omnis Blue keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool
- 1× User and safety manual
