

Product name: ENDORFY Omnis Pudding Red
Product code: EY5A033

We use the ENDORFY Omnis Pudding Red keyboards ourselves so we can say with all certainty – our professional, creative, and gaming lives wouldn't be the same without it. It's a safe bet you'll like it [too](#).

Its reinforced chassis is both stunning and functional. Sporting a volume wheel, 104 Pudding PBT keycaps illuminated with ARGB, plus a ~~comfy-pillow~~ [magnetic wrist rest](#)... It already sounds like the stuff dreams are made of, and we haven't even mentioned the most important part yet – the ultra-fast Kailh Red switches. Sometimes it feels like they're reading our minds. This is probably how the reign of machines will start.

For a creative analyst

Once upon a time, we joked that Omnis Pudding Red is a keyboard for an analyst with a creative heart. At first, it was just an innocent jape, but then we realized there was some truth to it.

Its [convenient](#) size and numpad make it just so versatile. On one hand, it's perfect for preparing those "few quick spreadsheets" for work or doing your dreaded taxes. On the other hand – there's no better way to fit all your macros and additional keybinds. You get what we mean, right?

The Omnis Pudding Red is a full-sized mechanical keyboard with an aluminum top. We designed it to flawlessly support you in every task – without warping or getting scratched. Additionally, it stays firmly put on the desk and doesn't slide even during [intensive](#) "work".

And it looks good too – the distinctive shape and ARGB backlight give it a fierce edge.

Let there be light (and Pudding)

The Omnis Pudding Red grabs everyone's attention with its Pudding keycaps and ARGB backlight. You do you – illuminate each key the way you want, make it match the décor of your war room or the mood of the song you currently keep looped. To us, it's the perfect way to relax after a rough day... Or during.

It's all thanks to the special technique we used to bring these two-colored keycaps to life – Double Shot. During that process, two separate layers of heavy-duty PBT polymer are injected into the mold. The rigid top keeps the keycaps from wearing out and the milky white bottom (where the name comes from) shines with bright ARGB light.

Kailh Red switches

"How can a keyboard be that fast?", you might ask. The answer is simple – Kailh [Red](#) switches.

Kailh Red are what we call "linear" switches – smooth all the way down, they excel where an immediate reaction is a must. Just a light flick of the key and you disappear from your enemy's sights. They're also durable, with an estimated lifespan of as many as 50 [m](#) clicks (and thanks to the N-Key Rollover, each and

every click is recorded and executed, period).

And as a bonus, the keyboard is quite... quiet. We're sure it'll find many fans among night owls (and their grateful roommates).

The devil is in the details **wrist rest**

The cherry on top of Omnis Pudding Red is no doubt the wrist rest you get with it. You'll fall in love with it instantly, especially if you spend a lot of time at your battle station or sometimes happen to place your keyboard at a weird angle. It's also diabolically convenient in MMOs, where it's all walking and macroing enemies to death for hours on end.

Equipped with magnets, the wrist rest is easy to install and holds the keyboard tight. If you prefer, you can even place it at a distance from your Omnis – thanks to the wide rubber feet, it remains stable in any position.

Quiet as a mouse **(or not)**

Sometimes the right soundtrack makes you feel like a movie star. Other times you want to have a buddy on comms to help pass the time. But in crucial moments the distractions need to go, and they need to go now – that's when Omnis Pudding Red comes to the rescue.

With it you can quickly and precisely adjust the volume on your PC. Turn down the annoying ads with one flick of a finger and never again worry about waking up your roommates. If you want, you can also turn up the sound and start a party – with ARGB blazing, of course.

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

My name is RGB. ARGB

Let's face it – keyboards without a backlight are fine. But if you like the darkness of the night, want to stand out from the crowd, or impress your followers, then ARGB is a must-have.

Customize the look of the Omnis Pudding Red to complete the battle station of your dreams. Highlight each of the 104 keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard – without installing anything.

Perhaps some will say it's unnecessary and a gizmo (you can always disable it entirely)... but if you like to play with the look of your setup every now and then, the ARGB backlighting is the thing for you.

Adjustable angles

To make clicking even more comfortable, we equipped the Omnis Pudding Red with two-step adjustable feet. With them, you can place the keyboard at an angle that best suits your needs.

Mess Cable management made easier

The Omnis Pudding Red keyboard chassis allows you to route the cable in [three](#) different ways, helping you make better use of your desk space.

It's possible thanks to a detachable cable and three custom-made channels on the bottom of the keyboard, allowing you to arrange the cable conveniently – for example, closer to the grommets or at the edge of the table.

[Everything](#) under control

Do you like to have [everything](#) under control? We thought of that – and equipped the Omnis Pudding Red with functional and feature-packed software.

We fondly refer to it as “God mode”. With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Omnis Pudding Red – main features:

- Full-size mechanical keyboard with a numeric block
- Modern design
- Configurable RGB backlighting
- High durability
- Palm rest with magnetic fastening
- Metal volume wheel
- Kailh Red mechanical switches
- Durable Pudding PBT keycaps
- Detachable cable
- Two-step feet
- N-Key Rollover function
- Functional software

ENDORFY Omnis Pudding Red – technical specifications:

- Product code: EY5A033
- EAN: 5903018665108
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Dimensions: 453×210×45 mm
- Number of keys: 104
- Switch type: Kailh Red RGB
- Switch color: red
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: milky-black
- Backlight type: RGB
- Connectivity:
 - Gold-plated USB, cable length: 1.8 m
- Keyboard specific features:
 - N-Key Rollover: full
 - Anti-ghosting: full

- Programmable macros: yes
 - Palm rest: yes
- Compatibility:
 - Windows
 - macOS
 - Linux
- Software: yes (optional)
- Software compatibility: Windows 10
- Warranty: 24 months

ENDORFY Omnis Pudding Red – logistics data:

- Retail box dimensions: 500×190×70 mm
- Weight (net): 1.15 kg
- Weight (gross): 1.62 kg
- Master carton dimensions: 515×375×400 mm
- Master carton weight (gross):
- Product quantity in master carton: 10 pcs

Set includes:

- 1× Omnis Pudding Red keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool
- 1× Safety instruction
