

**Product name: ENDORFY Thock Compact Red**  
**Product code: EY5A071**

The ENDORFY Thock Compact Red is almost half the size of full-sized keyboards (290×101×47 mm), but it could easily compete with them in the "great hardware for work and play" category. We also gave it a few extra points for looks – we just have a thing for [ARGB](#).

The compact chassis with aluminum top has everything you need to ~~live~~ [win](#) – including ultra-fast Kailh Red mechanical switches with durable Double Shot PBT keycaps. This means your ENDORFY Thock Compact Red will look as epic as the winner of a cosplay competition at a fantasy convention, that even after months of use. Maybe one day we'll design keyboard-friendly elven ears ;)

**60% of size = 100% [of epic](#)**

The Thock Compact Red is almost half the size of full-sized keyboards, but it's still 100% epic. Everything you need to win fits inside the compact chassis – and frees up extra space for ~~extreme~~ [wider](#) mouse maneuvers.

The keyboard is 29 cm wide. Its design allows you to place the cable in one of three custom-made [channels](#) on the bottom. Route it closer to the grommets or at the edge of the table for easier cable management.

**Kailh Red on duty**

When someone asks us for switches that are both durable and fast, the answer is simple – Kailh Red. We chose them for the Thock Compact because we know there's no time for lags in life.

Kailh Red are what we call "linear" switches – smooth all the way down, they excel where an immediate reaction is a must. Just a light flick of the key and you disappear from your enemy's sights. They're also durable, with an estimated lifespan of as many as [50M](#) clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

**61 ~~warriors~~ [PBT keys](#)**

The Thock Compact Red houses 61 battle-ready ~~warriors~~ [keys](#), awaiting your every command. They are armed with hardcore PBT keycaps, so you can click nonstop.

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line is that our keys don't require additional surface finish – PBT is like armor that also keeps your fingers in place. And the cherry on top – you can remove keycaps at any time. Together with the keyboard, we give you a handy tool for pulling them out.

**Armed to the ~~teeth~~ [keys](#)**

The Thock Compact Red is armed to the ~~teeth~~ [keys](#), so you can bash your virtual enemies like there's no tomorrow. The aluminum-strengthened keyboard bravely endures even the strongest hits and ragequits.

Its chassis ([reinforced with aluminum](#)) is rigid and damage-resistant – ready to withstand the toughest conditions. It firmly sticks to the desk, so it doesn't move around even when you're gaming or working for hours on end.

### **Can you turn on the light?**

Keyboards without backlights are fine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dreamhouse, no judgment here).

Customize the look of the Thock Compact Red to complete the battle station of your dreams. Highlight each of the keys in a different color, differentiate the core keys with a separate hue or set a single effect across the board. You can do this with the help of the included software or directly from the keyboard.

### **Magnetic feet**

For your convenience, we equipped the Thock Compact Red with [magnetic](#) feet. Thanks to them, you can set the keyboard in one of two heights – just the way you like it.

### **Activate the God mode**

Do you like to have absolute freedom and full control? We do too — so we added functional and feature-packed software to the Thock Compact Red. Do it your way.

We fondly refer to it as [God mode](#). With its help, you'll adjust all keyboard settings to your needs — whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

### **ENDORFY Thock Compact Red – main features:**

- Programmable ARGB lighting
- Detachable cable
- PBT double-shot keycaps
- Dual-function keys

### **ENDORFY Thock Compact Red – technical specifications:**

- Product code: EY5A071
- EAN: 5903018665207
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 290×101×47 mm
- Number of keys: 61
- Switch type: Kailh Red
- Switch color: red
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black

- Backlight type: RGB
- Connectivity:
  - USB (gold-plated), cable length: 1.8 m
- Keyboard specific features:
  - N-Key Rollover: full
  - Anti-ghosting: full
  - Programmable macros: yes
- Compatibility:
  - Windows
  - macOS
  - Linux
- Software: yes (optional)
- Software compatibility: Windows 10
- Warranty: 24 months

**ENDORFY Thock Compact Red – logistics data:**

- Retail box dimensions: 333×149×49 mm
- Weight (net): 0.56 kg
- Weight (gross): 0.87 kg
- Master carton dimensions: 350×260×320 mm
- Master carton weight (gross): 9.2 kg
- Product quantity in master carton: 10 pcs

**Set includes:**

- 1× ENDORFY Thock Compact Red keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool
- 1× User and safety manual
