

Product name: ENDORFY Thock Wireless Blue
Product code: EY5A077

If we ever start a keyboard gang, ENDORFY Thock Wireless Blue will definitely be one of its bosses. Not only is it full-sized and wireless, but it also sports powerful components. With such a package you can be sure that ENDORFY Thock Wireless Blue will never let you down. Under each button, we installed Kailh [Box](#) Blue mechanical switches with an insane lifespan of 70 m clicks. And if you ever feel like switching (wink wink) things up a bit, we added hot-swap too — giving you the possibility to easily change to any 3- or 5-pin switches.

It's armored with an aluminum ~~shield~~ [top](#) too, making the keyboard extremely durable. You won't have to worry about its condition much — it comes out of the toughest skirmishes with its head held high. And the ARGB turned on.

Always ready to ~~fight~~ [click](#)

If you want a keyboard that can do it all, you'll love the Thock Wireless Blue. With the included numpad and unmatched versatility, it's a perfect addition to any home or work setup.

The Thock Wireless Blue is a full-sized keyboard (104 keys) with a reinforced aluminum ~~shield~~ [top plate](#) — making it extremely durable. Designed to withstand any storm, it's resistant to scratches and firmly stays put on the desk even during the most intensive "work".

Three ways

If versatility and flexibility are your priority, the Thock Wireless Blue is the way to go. The early bounds of your desk no longer apply — take it where your ~~conquest~~ [quest](#) takes you (including your couch). You can work on several devices without the hassle of untangling the cables.

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

Hot-swap ft. Kailh [Box](#) Blue

When you spend a good chunk of your life at the PC — be it working or gaming — you need reliable gear that'll flawlessly execute your every command. That's why we equipped Thock Wireless Blue with ultra-durable mechanical Kailh [Box](#) Blue switches.

Kailh Box Blue are clicky switches, known for their distinctive activation sound. It's clear when the keypress actually happens, and they work well in scenarios requiring fast and flawless movements. In comparison to the standard Kailh Blue, they have an additionally reinforced stem structure. With gear like this, they're an elite commando unit ready for a mission — tireless and ultra-durable. [70 m](#) clicks are no joke.

The Thock Wireless Blue has also a truly PRO option for tech geeks — hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of models available on the market.

Double PBT = double fun

We designed the Thock Wireless Blue for two specific reasons. Firstly, we wanted to give you a keyboard with pro specs, ready for all the special assignments. Secondly, we like durable gear that can last for years — that's where the PBT and Double Shot technology come into play.

And after hours of ~~playing~~ [testing](#), we can say one thing: mission accomplished.

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant ~~shield~~ [polymer](#) are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) — PBT is like armor that also keeps your fingers in place.

And if needs be, you can easily take the keycaps off at any time, for example for cleaning. We've hidden a handy keycap puller on the bottom of the keyboard.

Rock [Thock](#) solid

The Thock Wireless Blue doesn't need a retirement plan — armored with an [aluminum](#) top plate, it can withstand any storm and outlast any opponent. No worries, no scratches, simply brand-new.

Its reinforced chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

For your uncompromised convenience, the Thock Wireless Blue is equipped with [magnetic](#) feet, so you can pick the height that best suits your needs. And if you want additional support, you can add a matching Thock Palm Rest — a magnetic add-on that'll keep your wrist comfortable, allowing more time at the PC.

Thock Wireless and chill

If you're looking for inspiration for a cozy evening chill, we have three words for you: Thock Wireless Blue. Put on soft slippers, play your favorite band — and adjust the volume with ease, without ever having to walk up to the desk again.

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

Let there be ~~light~~ [ARGB](#)

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With Thock Wireless Blue, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard — without installing anything.

Activate the God mode

Like to have absolute freedom and full control? We do too — so we added functional and feature-packed software to the Thock Wireless Blue. Do it your way.

We fondly refer to it as “God mode”. With its help, you’ll adjust [all](#) keyboard settings to your needs — whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock Wireless Blue – main features:

- Programmable RGB lighting
- Detachable cable
- PBT double-shot keycaps
- Hot-swappable switch sockets
- Volume control knob with mute button

ENDORFY Thock Wireless Blue – technical specifications:

- Product code: EY5A077
- EAN: 5903018665313
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 445.4×140×42.5 mm
- Number of keys: 104
- Switch type: Kailh Box Blue
- Switch color: blue
- Hot-swap: yes
