

**Product name: ENDORFY Thock TKL Wireless Black**  
**Product code: EY5A081**

The ENDORFY Thock TKL Wireless Black is a slender, compact keyboard that gives you absolute [freedom](#) of use – we’ve designed it to endure the toughest of challenges. Underneath the durable Double Shot PBT keycaps, you’ll find ultra-strong Kailh Box Black switches. With reinforced stems, they have an impressive lifespan of 70 m clicks.

And if you ever feel like ~~spicing~~ [switching](#) things up a bit, the ENDORFY Thock TKL Wireless Black sports a hot-swap too — giving you the possibility to easily change switches. It’s compatible with both 3- and 5-pin switches, so you can pick your weapon of choice. Its size saves your desk space, and the sturdy aluminum top plate means you don’t need to walk on eggshells around it — it comes out of every battle victorious and unscathed.

### **TKL FTW**

TKL keyboards are cool and so [handy](#) — they don’t take up much space, leaving room for other important gadgets on the desk, and can be easily carried in a backpack. The Thock TKL Wireless Black gives you all these options (and many more). We tested it extensively — and to put it simply, TKL FTW.

It’s small — shorter by the numpad section (hence the “[TKL](#)”) than a standard, full-sized keyboard — making it easy to fit it even on crowded tabletops. For additional convenience, we designed it to allow you to choose the routing of the cable through special channels on the bottom. Place it closer to the grommets or the edge of the table, whatever suits you best. Cable management made easy.

### **Three ways**

If versatility and flexibility are your priority, the Thock TKL Wireless Black is the way to go. The early bounds of your desk no longer apply — take it where your conquest takes you (including your couch). You can work on several devices without the hassle of untangling the cables.

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

### **Hot-swap & Men [Switches](#) In Black**

The to-do list is getting longer and longer and longer? Finish the blog post, talk with the crew, finalize the report for the big boss, progress the raid... Time to call for backup — that’s when the fast and reliable Kailh [Box](#) Black come into play.

The Kailh Box Black are wickedly comfortable “linear” switches, like Kailh Box Red but requiring a bit more force to activate. In comparison to the standard Kailh Black, they have an additionally reinforced stem structure. With gear like this, they’re an elite commando unit ready for a mission — tireless and ultra-durable. 70 million clicks are no joke.

The Thock TKL Wireless Black also has a truly PRO option for tech geeks — hot-swap, which is the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of models available on the market.

## **Unbowed, unbent, unbroken**

The Thock TKL Wireless Black doesn't need a retirement plan.

It'll be your support through thick and thin, come rain or shine. It'll [survive](#) even the hardest hits and the saltiest ragequits — we may or may not have tested it ourselves. At the end of the day, it still looks like taken straight out of the box.

It's thanks to the heavy-duty PBT keycaps and Double Shot technology that the keyboard boasts such high durability. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line: our keys don't require additional surface finish (unlike painted keycaps) — PBT is like armor that also keeps your fingers in place.

## **Rock ~~Thock~~ solid**

The Thock TKL Wireless Black is a tough cookie — its "icing" (the aluminum ~~shield~~ [top plate](#)) is rock solid, so you don't have to worry about that upcoming esports tournament on the other side of the globe.

Some even claim that it could withstand a zombie invasion, but we'd rather not test that just yet.

Its chassis reinforced with an [aluminum](#) top is rigid and damage-resistant — ready to withstand the toughest conditions. It firmly holds the desk, so it doesn't move around even when you're gaming or working for hours on end. It looks the part too — engraved patterns on the bottom and the ARGB backlight give it a fierce edge.

## **Let there be ~~light~~ ARGB**

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With Thock TKL Wireless Black, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the 87 keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard — without installing anything.

## **Comfort is king**

For your uncompromised convenience, the Thock TKL Wireless Black is equipped with magnetic feet. Pick the height that best suits your needs.

And if you want additional support, you can equip it with a matching Thock TKL Palm Rest — a magnetic add-on that'll keep your wrist comfortable, allowing you more time at the PC.

## **Activate the God mode**

Like to have [absolute](#) freedom and full control? We do too — so we added functional and feature-packed software to the Thock TKL Wireless Black. Do it your way.

We fondly refer to it as “God mode”. With its help, you’ll adjust all keyboard settings to your needs — whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

**ENDORFY Thock TKL Wireless Black – main features:**

- Programmable RGB lighting
- Detachable cable
- PBT double-shot keycaps
- Hot-swappable switch sockets

**ENDORFY Thock TKL Wireless Black – technical specifications:**

- Product code: EY5A081
- EAN: 5903018666594
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 361.5×140×42.5 mm
- Number of keys: 87
- Switch type: Kailh Box Black
- Switch color: black
- Hot-swap: yes
