

Product name: ENDORFY Thock Wireless Red Onyx White Pudding
Product code: EY5A120

In a beauty contest for keyboards, the ENDORFY Thock Wireless Red Onyx White Pudding is guaranteed to make the podium at the very least. Just look at this thing – bright case with an aluminum top, set of pudding keys with ARGB backlighting and other ~~trinkets~~ [goodies](#). A sure bet!

On the bright white housing with volume knob with mute function, we mounted hellishly fast Kailh Box Red switches with PBT keycaps. Their lifespan is estimated at 70M clicks, so as well as beauty contests, the keyboard can handle all your ~~virtual battles~~ [tasks](#) with ease. You also get hot-swap, i.e. the ability to swap out switches. The ENDORFY Thock Wireless Red Onyx White Pudding supports all 3-pin and 5-pin models, so you have plenty of options.

~~Snow~~ [Onyx](#) White

We created the Thock Wireless Red Onyx White Pudding for two reasons. Firstly – we like keyboards with great parameters. Secondly – we also like beautiful hardware that inspires cries of admiration every time someone sees it.

This bright accent in your ~~home office~~ [entertainment center](#) was designed by Mother Nature herself. Its colors refer to the white variety of onyx – a precious mineral that connoisseurs associate with high strength and a unique look. To put it simply, this handsome little fella charmed us at first sight.

1, 2, 3... [Connection](#) secured

It's a three-lane highway with the Thock Wireless Red Onyx White Pudding, so you can work on several devices without the hassle of untangling the cables. Make better use of your home office – kick back on a comfortable couch instead of being permanently desk-bound.

Pair your PC, tablet, or smartphone via Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

PBT puddings

Great news! Together with the Thock Wireless Red Onyx White Pudding keyboard, we give you our favorite dessert – 104 milky white Pudding keycaps. They look fantastic even after years of intense ~~smashing~~ [clicking](#), especially when backlit. Delicious!

It's all thanks to the special technique we used to bring these two-colored keycaps to life – [Double Shot](#). During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line is that our keys don't require additional surface finish – PBT is like armor that also keeps your fingers in place. And the cherry on top – you can remove keycaps (switches too) at any time. Together with the keyboard, we give you handy tools for pulling them out.

... and they ~~lived~~ [clicked](#) happily ever after

We once heard that switches are the heart of every keyboard. If that's true, then the Thock Wireless Red Onyx White Pudding will live happily ever after – thanks to Kailh Box Red switches ~~beating~~ [working](#) inside.

Kailh Box Red are “linear” and always ready to pounce. They excel in situations where you need to react immediately. Compared to the standard Kailh Red, they have an additionally reinforced stem structure. With gear like this, they’re an elite commando unit ready for a mission – tireless and ultra-durable. 70 m clicks are no joke.

The Thock TKL Wireless Pudding Red has also a truly pro option for tech geeks – hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with all 3-pin and 5-pin switches, so you can take your pick from a wide range of models available on the market.

This is ~~madness~~ [aluminum](#)!

We keep hearing that the Thock Wireless Red Onyx White Pudding looks like a professional MMA fighter (or some other tough guy). And there is some truth to that – its chassis shielded by an [aluminum](#) top is always ready for clashes with virtual opponents. Always.

For your uncompromised convenience, the Thock Wireless Red Onyx White Pudding is equipped with [adjustable](#) feet to pick the height that best suits your needs. And if you want additional support, you can equip it with Thock Palm Rest (available separately) – a magnetic add-on that’ll keep your wrists comfortable, allowing you more time at the PC.

The lord of the ~~rings~~ [sounds](#)

Sound management is our favorite superpower. We love being able to quickly mute a guild buddy or turn up the volume with the first beats of our favorite songs. That's why we added a volume knob to our keyboard – become a Lord of the ~~Rings~~ [Sounds](#) with a flick of your hand!

Each turn of the knob is accentuated with a jump, so you can adjust parameters precisely without taking your eyes off the screen. Adjust the volume by turning it and mute everything with a single click.

Backlights from outer space

Keyboards without backlights are fiiiine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn’s dream, no judgment here).

With the Thock Wireless Red Onyx White Pudding, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard.

Activate the God mode

Do you like to have absolute freedom and full control? We do too – so we added functional and feature-packed software to the Thock Wireless Red Onyx White Pudding. Do it your way.

We fondly refer to it as [“God mode”](#). With its help, you’ll adjust all keyboard settings to your needs – whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock Wireless Red Onyx White Pudding – main features:

- Stylish white design
- Programmable ARGB lighting
- Detachable cable
- Bluetooth and 2.4GHz wireless connectivity
- Adjustable feet
- PBT double-shot keycaps
- Hot-swappable switch sockets
- Volume control knob with mute button

ENDORFY Thock Wireless Red Onyx White Pudding – technical specifications:

- Product code: EY5A120
- EAN: 5903018666723
- Product type: keyboard
- Type of keyboard: mechanical
- Color: white
- Layout: US
- Dimensions (L×W×H): 445.4×140×42.5 mm
- Number of keys: 104
- Switch type: Kailh Box Red
- Switch color: red
- Hot-swap: yes
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: milky-white
- Backlight type: RGB
- Connectivity:
 - USB (gold-plated), cable length: 1.8 m
 - Bluetooth
 - Wireless 2.4 GHz
- Keyboard specific features:
 - N-Key Rollover: full
 - Anti-ghosting: full
 - Programmable macros: yes
 - Palm rest: yes (sold separately)
- Compatibility:
 - Windows
 - macOS
 - Linux
- Software: yes (optional)
- Software compatibility: Windows 10
- Warranty: 24 months

ENDORFY Thock Wireless Red Onyx White Pudding – logistics data:

- Retail box dimensions: 484×191.5×50.5 mm

- Weight (net): 0.99 kg
- Weight (gross): 1.42 kg
- Master carton dimensions: 505×270×405 mm
- Master carton weight (gross): 15 kg
- Product quantity in master carton: 10 pcs
