

Product name: ENDORFY Thock Blue
Product code: EY5A121

The ENDORFY Thock Blue is your personal [support](#) for the most demanding tasks. The reinforced top can survive any battle, the ARGB lighting creates an aurora borealis over your desk, and the PBT keycaps... the PBT keycaps look fresh out of the box for years – thanks to the Double Shot technology.

Then there are also the ultra-durable Kailh Blue switches. We affectionately call them "our army of blue samurai" because they're perfect for when quick and flawless ~~decisions~~ [movements](#) are needed. One day we may even make tiny katanas for them – YOLO.

Reinforced Aluminum top

If you like reliable hardware that's not afraid of your ~~hits~~ [ragequits](#), then you'll love the Thock Blue keyboard. We dressed it in a reinforced aluminum chassis, and it has a numpad too – a combo made for macros and massacring enemies. Some people even say that the numpad can also be useful at work.

Simply speaking, the Thock Blue is a full-sized mechanical keyboard with an aluminum top. We designed it to withstand any storm. As a result, it's scratch-resistant and stays firmly attached to the desk, even during the most intense "work".

Kailh Blue switches

Fast & flawless – that's how we'd sum up the Kailh Blue mechanical switches in two words. They respond to every ~~command~~ [push](#) at the speed of light, and that's why we decided the Thock Blue had to have them.

Kailh Blue are clicky switches, known for their distinctive activation sound. It's clear when the keypress actually happens, and they work well in scenarios requiring fast and flawless movements. They're also durable, with an estimated lifespan of as many as 50M clicks (and thanks to the N-Key Rollover, each and every click is recorded and executed, period).

Double armor

Every ~~warrior~~ [player](#) knows that before you go into battle, you need to put on armor. And good armor for the keyboard = PBT keycaps. With these bad boys, each key looks brand-new even after months of intense blasting. Seriously, we tested them ourselves.

The Thock Blue's keycaps are made using Double Shot technology. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line – our keys don't require additional surface finish. PBT is like an armor that also keeps your fingers in place.

And you can remove the keycaps at any time – for cleaning, for example. On the bottom of the keyboard, we've hidden a handy tool for pulling them out.

Your best buddy

The Thock Blue keyboard is your new best friend and an agent in black for special tasks in one. Not only is it extremely comfortable to use, it's also durable and tough as nails.

Its construction with an aluminum top is resistant to damage and very rigid. In addition, it sticks to the desk steadily and doesn't move even during long work hours. Looks mighty fine too – the patterns on the bottom and the ARGB backlighting give it a feisty flair.

For your convenience, the Thock Blue is equipped with [adjustable](#) feet. Pick the height that best suits your needs. And if you want additional support, you can pair it with a matching Thock Palm Rest (available separately) – a magnetic add-on that'll keep your wrist comfortable, allowing you more time at the PC. Some people use it as a stand for a coffee mug – but we haven't tested that. Yet.

Your personal sound engineer

Festivals and concerts are fun, but standing in a noisy crowd can be tiring in the long run. That's why the Thock Blue enters the ~~stage~~ [desk](#) – it's your private sound engineer, ready to start (literally!) a party in your room. And it's ARGB-worthy.

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

Can you [light up](#) in here?

Keyboards without backlighting look cool, but if you like to stand out from the crowd, ARGB is the perfect choice. With just one click, your desk looks like the inside of a spaceship (or a unicorn house – we respect that, too).

With the Thock Blue, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard – without installing anything.

Several ways to arrange a cord

The Thock Blue chassis allows you to route the cable in one of three directions. Thanks to this, you finally can make better use of space on your desk.

This is thanks to the detachable cable and three channels on the bottom of the keyboard. Each of them allows you to arrange the cable in a comfortable position – for example, closer to the grommets or at the edge of the tabletop.

Activate the God mode

Like to have [absolute](#) freedom and full control? We do too – so we added functional and feature-packed software to the Thock Blue. Do it your way.

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even

create your own macros.

ENDORFY Thock Blue – main features:

- Programmable ARGB lighting
- Detachable cable
- PBT double-shot keycaps
- Volume control knob with mute button

ENDORFY Thock Blue – technical specifications:

- Product code: EY5A121
- EAN: 5903018666730
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 445.4×140×42.5 mm
- Number of keys: 104
- Switch type: Kailh Blue
- Switch color: blue
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black
- Backlight type: RGB
- Connectivity:
 - USB (gold-plated), cable length: 1.8 m
- Keyboard specific features:
 - N-Key Rollover: full
 - Anti-ghosting: full
 - Programmable macros: yes
 - Palm rest: yes (sold separately)
- Compatibility:
 - Windows
 - macOS
 - Linux
- Software: yes (optional)
- Software compatibility: Windows 10
- Warranty: 24 months

ENDORFY Thock Blue – logistics data:

- Retail box dimensions: 484×191.5×50.5 mm
- Weight (net): 0.91 kg
- Weight (gross): 1.35 kg
- Master carton dimensions: 505×270×405 mm
- Master carton weight (gross): 14.3 kg
- Product quantity in master carton: 10 pcs

Set includes:

- 1× ENDORFY Thock Blue keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool

- 1× User and safety manual
