

**Product name: ENDORFY Thock Brown**  
**Product code: EY5A122**

With the ENDORFY Thock Brown keyboard, you have everything you need at hand ~~and~~ [your fingertips](#) – no matter the task. It has a reinforced top, ARGB backlighting and ultra-durable Kailh Brown switches that catch your every click and bounce gently when activated. You won't need to take your eyes off the screen.

On the keyboard, the battle-ready buttons are armed with PBT keycaps, manufactured with Double Shot technology. Simply put, you can ~~fight~~ [click](#) without worrying about them getting shiny and slippery after hours on the virtual battlefield. We all know that only ARGB can shine on your desk.

### **Mechanical hero**

We like to say that Thock Brown is our mechanical hero. Not only does it have a reinforced chassis with a numpad at its side, but also can survive long and intense battles without ~~bruises~~ [scratches](#). Our keyboard isn't even afraid of ragequits – we've seen it with our own eyes.

Its reinforced chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

### **50 million ~~hits~~ [clicks](#)**

Do you know movies about warriors who come safe and sound out of every battle? The Thock Brown is the same – the only difference is that our keyboard has given up medieval shields and armors. It was uncomfortable to click with them.

Kailh Brown switches are perfect for situations that require smooth and subtle movements. They are also durable – their lifespan is estimated at up to 50 m clicks (and thanks to the N-Key Rollover function, each of them will be recorded and executed).

### **Double armor**

Every ~~warrior~~ [player](#) knows that before you go into battle, you need to put on armor. And good armor for the keyboard = PBT keycaps. With these bad boys, each key looks brand-new even after months of intense blasting. Seriously, we tested them ourselves.

The Thock Brown's keycaps are made using Double Shot technology. During the manufacturing process, two separate layers of rigid and abrasion-resistant polymer are injected into the mold. The bottom line – our keys don't require additional surface finish. PBT is like an armor that also keeps your fingers in place.

And you can remove the keycaps at any time – for cleaning, for example. On the bottom of the keyboard, we've hidden a handy tool for pulling them out.

**Power + comfort = Thock Brown**

We created the Thock Brown keyboard for two reasons. First – we love reliable equipment with good parameters. Second – we really wanted to give you a comfortable keyboard that still looks new even after long hours of ~~work~~ [fun](#). The Thock Brown can do it all (and has a few other cool options).

Its construction with an aluminum top is resistant to damage and very rigid. In addition, it sticks to the desk steadily and doesn't move even during long work hours. Looks mighty fine too – the patterns on the bottom and the ARGB backlighting give it a feisty flair.

For your convenience, the Thock Brown is equipped with [adjustable](#) feet. Pick the height that best suits your needs. And if you want additional support, you can pair it with a matching Thock Palm Rest (available separately) – a magnetic add-on that'll keep your wrist comfortable, allowing you more time at the PC. Some people use it as a stand for a coffee mug – but we haven't tested that. Yet.

### **Let's get this party started!**

Sometimes we like to get crazy – and something tells us that you do too. So we gave the Thock Brown keyboard the option to keep the party going. Simply put, you can quickly [fire up](#) your favorite song (you can also mute it with a click, but why would you?).

Guests and snacks not included.

That's possible thanks to the wide metal volume wheel we added to the chassis. It has an accentuated and perceptible step, so you can fine-tune the sound without taking your eyes off the monitor. Adjust the volume by turning it or mute everything with a click.

### **Can you light [up](#) in here?**

Keyboards without backlighting look cool, but if you like to stand out from the crowd, ARGB is the perfect choice. With just one click, your desk looks like the inside of a spaceship (or a unicorn house – we respect that, too).

With the Thock Brown, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard.

### **Several ways to arrange a cord**

The Thock Brown chassis allows you to route the cable in one of three directions. Thanks to this, you finally can make better use of space on your desk.

This is thanks to the detachable cable and three channels on the bottom of the keyboard. Each of them allows you to arrange the cable in a comfortable position – for example, closer to the grommets or at the edge of the tabletop.

### **Activate the God mode**

Like to have [absolute](#) freedom and full control? We do too – so we added functional and feature-packed software to the Thock Brown. Do it your way.

We fondly refer to it as “God mode”. With its help, you’ll adjust all keyboard settings to your needs – whether it’s changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

**ENDORFY Thock Brown – main features:**

- Programmable ARGB lighting
- Detachable cable
- PBT double-shot keycaps
- Volume control knob with mute button

**ENDORFY Thock Brown – technical specifications:**

- Product code: EY5A122
- EAN: 5903018666747
- Product type: keyboard
- Type of keyboard: mechanical
- Color: black
- Layout: US
- Dimensions (L×W×H): 445.4×140×42.5 mm
- Number of keys: 104
- Switch type: Kailh Brown
- Switch color: brown
- Hot-swap: no
- Keycap material: PBT
- Keycap manufacturing technology: double shot
- Keycap color: black
- Backlight type: RGB
- Connectivity:
  - USB (gold-plated), cable length: 1.8 m
- Keyboard specific features:
  - N-Key Rollover: full
  - Anti-ghosting: full
  - Programmable macros: yes
  - Palm rest: yes (sold separately)
- Compatibility:
  - Windows
  - macOS
  - Linux
- Software: yes (optional)
- Software compatibility: Windows 10
- Warranty: 24 months

**ENDORFY Thock Brown – logistics data:**

- Retail box dimensions: 484×191.5×50.5 mm
- Weight (net): 0.91 kg
- Weight (gross): 1.35 kg
- Master carton dimensions: 505×270×405 mm
- Master carton weight (gross): 14.3 kg
- Product quantity in master carton: 10 pcs

**Set includes:**

- 1× ENDORFY Thock Brown keyboard
- 1× Detachable USB-C cable
- 1× Keycap removal tool
- 1× User and safety manual
