

**Product name: ENDORFY Thock TKL Wireless CZ Red**  
**Product code: EY5C005**

The ENDORFY Thock TKL Wireless CZ Red is one of those small keyboards that you fall in love with at first click. It dominates in games, creative challenges, and excels at work too, but most importantly – it can do it all wirelessly, from the cozy comfort of your couch. Under each key, we installed ultra-durable Kailh Box Red mechanical switches. They have an insane lifespan of 70 million clicks. And if you ever feel like ~~spicing~~ [switching](#) things up a bit, we added hot-swap too – giving you the possibility to easily change to any 3-pin or 5-pin switches.

The ENDORFY Thock TKL Wireless CZ Red will last for [years](#). The sturdy top withstands ragequits like an MMA champion, and the keycaps with a Czech layout keep your fingers in place beautifully.

### **Room to grow**

Every day brings different challenges – races, dragons, deadlines... It's a hectic life that takes up a lot of time [and space](#). That's why we created the Thock TKL Wireless CZ Red: a small keyboard that can keep up with any and all tasks, and gives you space for other fancy gadgets.

It's small – shorter by the numpad section (hence the "[TKL](#)") than a standard, full-sized keyboard – making it easy to fit it even on crowded tabletops. For additional convenience, we designed it to allow you to choose the routing of the cable through special channels on the bottom. Place it closer to the grommets or the edge of the table, whatever suits you best. Cable management made easy.

### **Three ways**

It's good to have options. And we give you three in terms of connectivity. Wired peripherals generally are ok, but nothing beats relaxing on a couch while maintaining perfect control of your PC.

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

### **The ultimate package**

The Thock TKL Wireless CZ Red comes armed to the teeth – it's the ultimate package for the most demanding of users. Ultra-fast and long-lasting Kailh [Box Red](#) paired with hot-swap make you the proper lord of the switches.

Kailh Box Red are "linear" and always ready to pounce. They excel in situations where you need to react immediately. In comparison to the standard Kailh Red, they have an additionally reinforced stem structure. With gear like this, they're an elite commando unit ready for a mission – tireless and ultra-durable. 70 million clicks are no joke.

The Thock TKL Wireless CZ Red has also a truly PRO option for tech geeks – hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of models available on the market.

### **Keycaps made of ABS**

The Thock TKL Wireless CZ Red is a mechanical keyboard that lets you ~~tell~~ [write](#) your story – defeat virtual enemies, win races, chat with your friends... Anything you want.

All thanks to durable ABS keycaps. They won't crack (literally!) even in the most intense battles, are very pleasant to the touch and hold your fingers well. Plus, they look beautiful with ARGB backlighting, so you can expect a few jealous looks from your team.

### **Full Metal Keyboard**

You don't have to worry about the Thock TKL Wireless CZ Red's feelings or walk around it on eggshells. It's sturdy and fears nothing – thanks to the [aluminum](#) top plate, you can take it with you wherever you go without the risk of scratches.

Its [reinforced](#) chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

### **Let there be ~~light~~ ARGB**

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then [ARGB](#) is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With Thock TKL Wireless CZ Red, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the 87 keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard – without installing anything.

### **Comfort is king**

For your uncompromised convenience, the Thock TKL Wireless CZ Red is equipped with [magnetic](#) feet. Pick the height that best suits your needs.

And if you want additional support, you can equip it with a matching Thock TKL Palm Rest (available separately) – a magnetic add-on that'll keep your wrist comfortable, allowing you more time at the PC.

### **Activate the God mode**

Like to have [absolute](#) freedom and full control? We do too – so we added functional and feature-packed software to the Thock TKL Wireless CZ Red. Do it your way.

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.
