

Product name: ENDORFY Thock TKL Wireless CZ Brown
Product code: EY5C006

The ENDORFY Thock TKL Wireless CZ Brown is a small TKL keyboard that will steal your heart from the very first click. This backlit bad boy shines in games, creative challenges, and at work – all [wirelessly](#) from the comfort of your couch.

It's as tough as tank armor at the highest level – thanks to Kailh [Box](#) Brown mechanical switches. We sealed them under keycaps (and we're proud to say they're extremely pleasant to the touch) with a Czech layout. Thanks to the reinforced shafts, the switches last up to 70 million clicks, so you can stay at the keyboard for a long time. You also get hot-swap – the pro option to change the switches for any 3-pin or 5-pin models.

More space for your ~~quests~~ stuff

Presentations, preparations, podcasts... We all know that working at full speed consumes a lot of time and space. That's why we've made sure that the Thock TKL Wireless CZ Brown gives you more space for your ~~quests~~ [stuff](#).

Perhaps one day we will also add more time to the package – we're working on it.

It's small — shorter by the numpad section (hence the "TKL") than a standard, full-sized keyboard — making it easy to fit it even on crowded tabletops. For additional convenience, we designed it to allow you to choose the routing of the cable through special channels on the bottom. Place it closer to the grommets or the edge of the table, whatever suits you best. Cable management made easy.

1, 2, 3... Connecting

The Thock TKL Wireless CZ Brown is the BFF of anyone who likes flexible solutions. This bad boy connects to other devices in 3 different ways, so you can easily pair it with your computer and click from your couch.

Pair your PC, tablet, or smartphone via lag-free Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included [USB-C](#) cable.

Switches in boxes

We sometimes joke that under the keys of the Thock TKL Wireless CZ Brown there are ~~surprises~~ [switches](#) in boxes. And it's kinda true – because under the reinforced keycaps we've mounted Kailh Box Brown switches. Oh yeah, we love gifts!

Kailh Box Brown are tactile switches for smooth and subtle movements. They are also durable – thanks to the additionally reinforced shaft construction, you can click (up to 70 million times) without worrying about something crunching under your fingers. They also provide extra stabilization of the buttons and protection against dust.

In addition, the Thock TKL Wireless CZ Brown also has a pro option for all PC enthusiasts – hot-swap. This means that you can change your switches at any time. The keyboard is compatible with both 3-pin and 5-pin switches, so you can use most models on the market.

Keycaps made of ABS

The Thock TKL Wireless CZ Brown is a mechanical keyboard that lets you tell ~~write~~ your story – defeat virtual enemies, win races, chat with your friends... Anything you want.

All thanks to durable ABS keycaps. They won't crack (literally!) even in the most intense battles, are very pleasant to the touch and hold your fingers well. Plus, they look beautiful with ARGB backlighting, so you can expect a few jealous looks from your team.

Aluminum ~~shield~~ top

You don't need to walk on eggshells around the Thock TKL Wireless CZ Brown. The ~~shield~~ **plate** made of aluminum, which we mounted on the top, bravely defends the keyboard against scratches and ragequits. Simply put, nothing crunches under your fingers even during hardcore skirmishes. One day we will design a shield of our own size.

Its reinforced chassis gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

Let there be ~~light~~ ARGB

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then ARGB is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With the Thock TKL Wireless CZ Brown, you can easily customize the look of the keyboard to match the rest of your battle station. Highlight each of the 87 keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard.

Comfort is king

For your uncompromised convenience, the Thock TKL Wireless CZ Brown is equipped with magnetic feet. Pick the height that best suits your needs.

And if you want additional support, you can equip it with a matching Thock TKL Palm Rest (available separately) — a magnetic add-on that'll keep your wrists comfortable, allowing you more time at the PC.

Activate the God mode

Like to have absolute freedom and full control? We do too — so we added functional and feature-packed software to the Thock TKL Wireless CZ Brown. Do it your way.

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs — whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.

ENDORFY Thock TKL Wireless CZ Brown – main features:

- TKL mechanical keyboard
