

**Product name: ENDORFY Thock Compact Wireless IT Red**  
**Product code: EY5G001**

The ENDORFY Thock Compact Wireless IT Red fits on the smallest of desks – imagine the extra space you’ll reclaim for your mouse. It also has a reinforced chassis, so no need to walk on eggshells around it. Each of the 61 keys hides a Kailh Box Red mechanical switch. These are ultra-fast switches with beefed-up stems that can survive up to 70 million clicks. Eager to fight [click](#), and a delight for technology heroes who don’t shy away from that “one quick match” before bedtime. To top it all off, we added keycaps inscribed with an Italian layout.

But that’s not the end of its perks – [hot-swap](#) is also included, so you can change your switches on the fly. The keyboard supports all 3-pin and 5-pin switches, giving you full freedom of choice.

**Less [\(keys\)](#) is more [\(space\)](#)**

The ENDORFY Thock Compact Wireless IT Red is 40% smaller than a standard full-sized whale of a keyboard. That means infinitely more desk space at your disposal. We opted for a bigger mousepad, and now we can drift around with a mouse like no one’s watching.

10/10, can recommend.

It’s one-size-fits-all, so it suits even the most crowded desks. Its design allows you to place the cable in one of three custom-made channels on the bottom. Route it closer to the grommets or at the edge of the table for easier cable management.

**Multiple connections available**

It’s a three-lane highway with the Thock Compact Wireless Red, so you can ~~rule the world~~ [work](#) on several devices without the hassle of untangling the cables. Make better use of your home office – sit back on a comfortable couch instead of being permanently desk-bound.

Pair your PC, tablet, or smartphone via Bluetooth or 2.4 GHz connections. For a more old-school vibe, use the included USB-C cable.

**Hot-swap and a lifespan of 70 M clicks**

Who doesn’t want to relax on their favorite battlefield after a long day at work? We too love ~~the smell of napalm in the morning~~ [a good evening FPS sesh](#), so Kailh Box Red were a must-have. They’re soft and react to the slightest touch – you better gear up; their speeds are supersonic.

Kailh Box Red are “linear” and always ready to pounce. They excel in situations where you need to react immediately. In comparison to the standard Kailh Red, they have an additionally reinforced stem structure. With gear like this, they’re an elite commando unit ready for a mission – tireless and [ultra-durable](#). 70 million clicks are no joke.

The ENDORFY Thock Compact Wireless IT Red has also a truly PRO option for tech geeks – hot-swap, the ability to easily swap switches in and out. The keyboard is compatible with both 3- and 5-pin switches, so you can take your pick from a wide range of models available on the market.

## Keycaps made of ABS

The ENDORFY Thock Compact Wireless IT Red is a mechanical keyboard that lets you tell [write](#) your story – defeat virtual enemies, win races, chat with your friends... Anything you want.

All thanks to durable ABS keycaps. They won't crack (literally!) even in the most intense battles, are very pleasant to the touch and hold your fingers well. Plus, they look beautiful with ARGB backlighting, so you can expect a few jealous looks from your team.

## Full ~~Metal~~ Aluminium Jacket

Whenever the mid-life crisis rolls in and we decide to start a gang, this keyboard will be its honorary member. You might say "This is madness!" – but ENDORFY Thock Compact Wireless IT Red is a tough cookie, and it ain't afraid of no ghosts. Even the scratching or punching ones.

Its reinforced ~~armor~~ [chassis](#) gives it a defense bonus, so it's super rigid and resistant to damage. Additionally, it stays firmly put on the desk and doesn't slide around like a madman during even the most intense "work".

## Let there be ~~light~~ ARGB

Keyboards without backlights are fiine... but if you want to really stand out from the crowd, then ARGB is the way to go. With just a single click, you can make your setup look like a proper spaceship (or a unicorn's dream, no judgment here).

With ENDORFY Thock Compact Wireless IT Red, you can easily customize the look of the keyboard to match the rest of your ~~battle station~~ [desk](#). Highlight each of the 61 keys separately, change the color of the core hotkeys or set a single effect across the board. You can use the included software or do it directly from the keyboard.

## Adjustable angles

For your uncompromised convenience, the ENDORFY Thock Compact Wireless IT Red is equipped with [magnetic](#) feet. Pick the height that best suits your needs.

## Activate the God mode

Like to have [absolute](#) freedom and full control? We do too – so we added functional and feature-packed software to the Thock Compact Wireless Red. Do it your way.

We fondly refer to it as "God mode". With its help, you'll adjust all keyboard settings to your needs – whether it's changing the ARGB backlight and its color, customizing the effects, or creating new profiles. If you want, you can even create your own macros.
