

Product name: ENDORFY Supremo FM5 Gold 750W
Product code: EY7A008

The ENDORFY Supremo FM5 Gold 750W is a mighty power supply unafraid of components' demanding requirements. No wonder, because it's packed with all the best for stable operation — say goodbye to unexpected ~~coffee-break~~ [resets](#).

It's a DC-DC power supply for tight voltage regulation, stable operation, and a continuous power delivery of 750 W. The ENDORFY Supremo FM5 Gold 750W has a 12 cm Fluctus 120 PWM fan, so it'll maintain the right temperature like there's no tomorrow. No wonder this bad boy has been certified 80 PLUS® Gold.

And the cherry on top — our Supremo is only 14 cm long. That's enough to fit even into smaller cases (and thanks to its fully modular build, you can plug in only the necessary cables).

Blue screen? What's that?

With the Supremo FM5 Gold 750W, you can forget about unexpected resets — even during intense skirmishes with your virtual enemies. We just know how annoying the blue screen at the end of the quest can be. And that's why we designed our power supply to give ~~you~~ [your components](#) a stable voltage on each line separately.

What makes this possible is the DC-DC conversion, which guarantees tight voltage regulation, stable operation, and a total continuous power delivery of 750 W. You get a complete package of protection against short circuits and overloads, among other things. This means that your PSU will simply shut down if there's a failure or overvoltage in the power grid.

Pssst, do you hear it?

If you like white noise, we have bad news — with the Supremo FM 5 Gold 750W you ~~work~~ [click](#) in silence. After a few hours at full speed, you can hit an all-night raid, and your computer will still be quiet.

So quiet that you'll hear your thoughts.

What makes this possible is our greatest pride — the silent Fluctus 120 PWM fan, which we've developed in cooperation with Synergy Cooling. It's small, but it brings the temperatures down like the best A/C system you can think of. It keeps the Supremo cool even during the most demanding tasks, and you can work and play without that annoying hum in the background.

Japanese capacitors [only](#)

The Supremo FM 5 Gold 750W is a power supply that can easily handle the most hardcore temperatures. Where the water starts to boil, this PSU keeps it cool — it can work even at 105° Celsius.

It's because of Japanese electrolytic and aluminium-polymer (solid-state) capacitors. They are small, but they hold the true power of the samurai — we are considering giving them tiny katanas in the next revision.

[7-year](#) warranty

The Supremo FM 5 Gold 750W is covered by an extended [7-year](#) warranty. You

probably won't need to use it anyway (hello, it's ENDORFY!), but it's still nice to have it.

ENDORFY Supremo FM5 Gold 750W – main features:

- Certyfikat 80 PLUS® Gold
- Whisper-quiet operation
- Optimized Fluctus Fan
- Long-life FDB bearing
- 100% Japanese capacitors
- 7-year warranty
- Fully modular cables
- Compact casing

ENDORFY Supremo FM5 Gold 750W – technical specifications:

- Product code: EY7A008
- EAN: 5903018666174
- Product type: ATX Power Supply
- Color: black
- Dimensions: 87×140×150 mm (H×W×L)
- Continuous power: 750 W
- Efficiency: 80 PLUS® Gold
- Cabling: fully modular black ribbon, black sleeved ATX
- Fan: 120 mm Fluctus
- Fan bearing: FDB
- Protections:
 - OVP
 - UVP
 - OCP
 - SCP
 - OPP
 - SIP
 - OTP
- Input voltage: 115 V / 230 V
- Connector count and cable length:
 - 2× EPS 12V 8-PIN (4+4), 705 mm
 - 1× ATX 24-PIN, 600 mm
 - 3× PCI-E 8-PIN (6+2), 560 mm
 - 8× SATA, 560 – 880 mm
 - 1× MOLEX, 880 mm
- MTBF: 100 000 h
- Warranty: 84 months

ENDORFY Supremo FM5 Gold 750W – logistics data:

- Retail box dimensions: 270×220×95 mm
- Weight (net): 1.469 kg
- Weight (gross): 2.575 kg
- Master carton dimensions: 590×235×290 mm
- Master carton weight (gross): 16 kg
- Product quantity in master carton: 6 pcs

Set includes:

- Supremo FM5 Gold 750W power supply
- Modular cabling
- Power cord
- Mounting accessories
- Safety instruction
