

Product name: ENDORFY Atlas Double

Product code: EY8F003

The ENDORFY Atlas Double holds your ~~windows to the world~~ screens like the best strongman. Not only does this metal tough guy carry up to 8 kg on each hand, but it lifts screens from 13" to 27" – to create the perfect setup for work and play.

The ENDORFY Atlas Double is compatible with 75×75 mm/100×100 mm VESA standards. You can also easily adjust the height of the screens, rotate them left or right (from -90° to +90°), and tilt them up or down (from -35° to +90°). Mounting the whole thing takes just a few seconds – just screw the clamp onto the desk and you're done. You're ready to go [do your own thing](#).

Your cleaning assistant

If we had to sum up the Atlas Double in one sentence, we'd say it's like a personal cleaning assistant. With its help, you can get rid of annoying cables from your desk and keep your ~~workspace~~ [playground](#) in perfect harmony... And we all know how hard that can be.

It's thanks to the minimalist construction made of durable metal. We've also included a plastic cable holder and hooks – just attach them to the frame and say goodbye to messy wires.

Full freedom

The Atlas Double gives you [complete](#) freedom to adjust your screens – you only need a few moves to quickly change their height, angle, and orientation. Something tells us that this option will come in handy in many situations, for example when you're playing with your besties at the same table.

The Atlas Double moves in all directions. With its help, you can easily change the height of the screen, rotate it left or right (from -90° to +90°), and tilt it up or down (from -35° to +90°). Once mounted, your screen gains the pivot function for comfortable scrolling through cat videos or programming.

F#3:

Quick assembly

Assembling the Atlas Double takes less time than a trip to the shop.

All you have to do is screw the handle to the edge of your desk (up to 6 cm thick) in the most convenient place and that's it. You're ready to ~~work~~ [play](#).
