

Product name: ENDORFY Floor Pad FP120R

Product code: EY8G001

When your home office needs extra support, the ENDORFY Floor Pad FP120R comes ~~on stage~~ [to the rescue](#). It's a durable mat made from waterproof PVC material that can withstand any sudden movement of your chair. Even if you scoot on plastic wheels.

Plus, this bad boy holds onto the floor as tightly as posters in the 90s stuck to walls – doesn't move even when you put it on the ceramic tiles. And beautifully blocks out the sounds of wheels ~~scratching~~ [shuffling](#) on the surface. Something tells us that this feature may please your neighbors.

PVC shield

Sometimes we say that the Floor Pad FP120R is our favorite PVC [shield](#). This is because it protects the floor from water, abrasion, and damage from the chair. It's even resistant to the plastic wheels and crumbs that are sometimes left on the floor – just a real tough cookie.

Stick to the ~~rules~~ [floor](#)

The Floor Pad FP120R won't run away from under your seat, even when you're fidgeting on it like impatient cosplayers queuing to get into the convention. The mat sticks to the ~~rules~~ [floor](#) even on slippery surfaces like ceramic tiles.

This is thanks to the PVC material we've used to make the Floor Pad FP120R. The fabric stabilizes the mat and ensures it doesn't move on the floor. And you can literally clean it in a moment – just dust it off with a vacuum cleaner (or a cloth) to regain the freshness of a spring morning.

Mat on [mute](#)

If anyone ever tells you that the floor mat can't work in "mute" mode, show them the Floor Pad FP120R. This PVC bad boy muffles chair shuffles like in a professional recording studio – which is probably why some people think about covering the walls with it.

The mat cushions the surface and dampens the sound of ~~virtual skirmishes~~ [a moving seat](#). Just put it on the floor, and that's it – you are good to go. Your neighbor downstairs won't hear a thing.

ENDORFY Floor Pad FP120R – main features:

- Floor protection against scratches
- Non-slip and waterproof surface
- Stable setting of the chair in the selected position
- Reduces chair wheel sounds

ENDORFY Floor Pad FP120R – technical specifications:

- Product code: EY8G001
- EAN: 5903018666518
- Product type: floor pad
- Color: black
- Material: PVC
- Shape: rectangle
- Dimensions: 900×1200 mm

- Thickness: 2.2 mm
- Warranty: 24 months
