Ventum 200 Solid

PC CASE

ENDORFY

Just in case

The black ENDORFY Ventum 200 Solid is your private safe for all the top-secret data. It's spacious, yet slender — measuring 373×440×211 mm. It can comfortably fit a full-sized ATX motherboard, up to three 2.5" disks (or 2× 2.5" and 1× 3.5", it's up to you), and as many as 7 (seven!) 120 mm fans.

▸ Stratus 120 PWM fan
Includes a powerful and durable Stratus fan with PWM speed control, co-developed with Synergy Cooling.

▸ Mesh front panel
Fine mesh structure lets airflow in while keeping the dust out.

▸ Convenient dust filters
Front steel mesh and magnetic dust filters on the top and bottom pop off easily for cleaning.

▸ Wide cooling compatibility
Enough room for tall heatsinks up to 161 mm and large radiators up to 360 mm in front or 240 mm on top of the case.

▸ Compact form factor
Shorter footprint that a regular tower saves valuable desk space.

▸ Dual-chamber layout
Modern internal layout separates airflow zones and hides cables and storage from view.

▸ 3 storage mounts
Fit three drives, including one 3.5 inch HDD, in hidden mounts without blocking the airflow.
